HAVE NEW BUILDING

Knights of Columbus Formally Dedicate Structure at Mare Island

SAN FRANCISCO, March 19.—The formal dedication at Mare Island this week of a \$15,000 permanent Knights of Columbus building for the men of this important naval and marine base marks the completion of another link in the chain of splendid clubhouses of permanent type which the K. of C. is establishing at the various camps and bases which will be continued despite the advent of peace.

The dedication of the Welfare Service Building of the K. of C. at Mare Island Naval station was solemnized by Archbishop Edward J. Hanna who was accompanied by Rev. M. Gleason, Rev. Daniel J. O'Kelly and Albert G. Bagley, director of the Western Department War Activities, Knights of Columbus.

Captain Edward L. Beach, commandant of the marines, Col. F. Karmany and hundreds of sailors and marines participated in the ceremonies, officers and men paying high tribute to the work of the organization at the naval base, where Frank H. Gibb and Peter Flanagan are the secretaries.

The new structure compares favorably with the \$15,000 K. C. club houses recently completed at Rockwell Field, and is said to be one of the best buildings erected by a war welfare organization at any American naval station.

GERMANS PLAN RESISTANCE

Military and Civil Authorities to Resist Claims to Part of Silesia.

PARIS, March 18.—The German military and civil authorities in upper Silesia reports from Warsaw say, are making active preparations to resist Polish and Czech claims to that part of Silesia. Military preparations are said to be under General Gressner and volunteers are coming in from all parts of Germany. They are well armed and are said to receive good pay.

Reports from Prague say trenches have been dug and barbed wire entanglements constructed along the southern frontier of Silesia. The Germans are said to be well supplied with guns and ammunition.

TREASURER'S CALL FOR COUNTY WARRANTS

Notice, the undersigned, treasurer of Union county, Oregon, has funds on hand with which to redeem all warrants issued on the unpaid bond, and endorsed not paid for want of funds prior to February 3, 1919.

Interest on the above warrants ceases on March 20th, 1919.

JOHN FRAWLEY
Treasurer of Union County,

APPEAL TO LIFT ECONOMIC BLOCKADE

This is the Plan According to Russian Official to Help that Country.

LONDON, March 19.—Lift the economic blockade from Russia is the appeal which Alexander Berkenheim of Moscow, vice president and general manager of the All-Russian Central Union of Consumers' Societies, is making in England and which he intends to make soon in the United States. That is the only way, in Mr. Berkenheim's opinion, to cure Russia's troubles.

Mr. Berkenheim left Moscow, the headquarters of his organization, in December. He collects reports of the famine conditions prevailing in the cities of Northern Russia. The situation in Petrograd is particularly bad, he says.

Mr. Berkenheim intends to visit New York, Washington, Chicago and San Francisco. The principal object of his trip to America is to develop trade relations between the United States and Russia, and to establish offices on the eastern and western seaboard. From the eastern coast he plans to ship large consignments of American products to the Black Sea districts of Russia, and from the Pacific coast to Siberia. Heretofore, the organization has had only a few agents in the United States.

The All-Russian Central Union of Consumers' Societies is, Mr. Berkenheim says, the directing head of various co-operative associations. It embraces 450 unions made up of 25,000 societies with an individual membership of 12,000,000 heads of families. Counting five persons to the family, it is reckoned that the Central organization is supplying the necessities of life to some 60,000,000 people in all parts of the empire.

"On our organization," Mr. Berkenheim told a representative of the Associated Press, "depends the task of keeping Russia alive. We believe that eventually our work will be the means of restoring and regenerating Russia."

"In America I intend to make a study of the means of opening up to Russia the resources of your great country through trade. One chief aim now, is to remove trade restrictions. The Black Sea blockade is still effective. No formal blockade exists with regard to Siberia, but the system of permits in force greatly hampers commerce."

Except in Northern Russia," he continued, "there is plenty of food

and that is true of most of the agricultural districts. Vast stores of foodstuffs are being held by the peasants simply because they do not exchange them for needed articles of like value. Those food supplies will be released for distribution as soon as we can bring into Russia cloth, manufactured iron and steel articles, materials for soap making and agricultural machinery."

Mr. Berkenheim refused to comment on political conditions in Russia or to discuss the Bolshevik government.

"I can only say," he said, "that as long as civil war continues in Russia, conditions cannot improve."

REQUEST MANN KEEP HANDS OFF G. O. P. MATTERS

WASHINGTON, March 19.—Replying to a recent statement by Representative Mann of Illinois, Representative Longworth of Ohio, republican, issued a statement Tuesday asking the former Republican floor leader to "keep his hands off the organization and legislative control of the new houses of representatives."

"That is the way," said the Ohio representative, "to bring about harmony in the party. That is the way to make a success in 1920 certain. Such an assurance from Mr. Mann will be greeted with acclamations by the vast majority of Republicans and by loyal American generally."

HETTY GREEN HAD NUMEROUS HEIRS

Expert Genealogist Finds 439 Scattered in Various Parts of the World.

NEW BEDFORD, Mass., March 19.—William M. Emery of this city, a genealogist employed by the trustee of the million dollar estate of Sylvan Ann Howland, aunt of Mrs. Hetty Green, has prepared a list of 2200 descendants of Gibson Howland. It is announced. From this list he traced the 429 heirs to the trust estate which was released for distribution by the death of Mrs. Green in July, 1914. The heirs live in different parts of the United States, Canada, Hawaii, England and France.

Chas. Tiller, 17 years old, son of James Tiller of Davis Creek, was accidentally killed Monday afternoon while hunting with two companions.

WORK OF NAVAL GUNS

Dropped 789 Shells on Seven Objectives on Western Front.

LONDON, March 19.—The big United States naval guns, some of which have a range of 26 miles, dropped 789 shells on seven objectives on the western front during the last few weeks of fighting with what a naval report prepared at headquarters here terms "remarkable accuracy." The report further says that they were among the strongest guns on the western front.

In summarizing this navy activity, the report says the first shipment of these guns arrived at St. Nazaire, France, July 25, 1918. The first gun was mounted August 5, it left St. Nazaire August 18, and arrived at firing point August 24. All guns were mounted by August 17 and all had been concentrated at Haeskaumont by September 26. The firing record shows the first shot was fired on September 6 by a gun stationed at Bethondes and firing at Tergelster. The firing really got under way September 14 and was kept up continuously until 10:59 a. m. November 11, one minute before hostilities ceased. The last shot from Thierville dropped into Longwyon.

These guns were supplied from the surplus of 35 percent of ordnance allowed each battleship. Each gun was mounted on a railway truck and the complement for each consisted of eight cars and a locomotive. The most effective work was done by guns at Thierville firing at Montennes and Longwyon, by guns at Selennes firing at Laon and those at Charry firing at Montmedy.

THREE IOWANS DROWNED DUREQUE, Ia., March 19.—Three people were drowned near Waukon, in Allamakee county, Saturday night, when they were carried away while crossing a creek, swollen by heavy rain. The victims are Mrs. Ben Bulman, aged 27, her daughter, aged 3, and her father, Mr. Myers, aged 54. They were driving a team across the stream.

AMERICANS GET GUN

One of Germany's War Machines Delivered at Coblenz.

COBLENZ, March 19.—One of the big twenty-four centimeter German guns which in 1917 fired upon Ypres day after day was turned over to the Americans recently by the German delivering Commission. The Ypres gun with four others, all mounted upon railroad trucks, eventually may be sent to the United States as part of the war material which has been taken charge of by the American Army of Occupation.

When the five railroad guns arrived in Coblenz from occupied Germany they were in charge of Lieutenant Rudolph Gogarten, of the German army, who told members of the United States Receiving Commission that he had been in command of the crew which manned one of the guns of the shipment during the time that it was firing upon Ypres two years ago.

REMOVE RESTRICTIONS ON IMPORTATIONS OF RICE

WASHINGTON, March 18.—Restrictions affecting the importation of rice for consumption in the United States were removed, effective Monday under an order made public Sunday by the war trade board. Applications for license to import will be considered by the board.

The Economical Corset

THE WAR HAS TAUGHT US THE MEANING OF TRUE ECONOMY

When the government urged conservation and economy, it recommended the buying of quality articles that would give the maximum wear.

The mistaken idea that economy meant the purchase of cheaply made articles was removed forever.

MODART CORSETS

are made from carefully selected, high-grade materials only. MODART boning, cloth, thread, tape—all are quality materials. The boning in particular—that factor upon which the style and shape of a corset so much depends—is made especially for the Modart Company from clock spring steel—the most perfect boning ever produced. It will not rust or take a permanent bend at the waistline. Every MODART Corset gives a high degree of satisfaction in wear and sleep-keeping qualities.

All MODART Corsets lace in front—because front adjustment means right adjustment. The absence of laces at the back gives form and wonderful smoothness in gown fitting.

A trial fitting convinces. You have to put on a MODART to see its style and feel its comfort. Style and comfort are not easily explained.

Make a request for a trial fitting in our corset department before planning your spring clothes
