SECOND TALK ON SOCIAL HYGIENE

DR. LOUIS RICHTER GIVING LECTURES HERE

Experienced Physician Who is Sent Out by Oregon Social Hygiene Society.

Following her address in the Star theatre here at 3 o'clock this afternoon, Dr. Louise Richter will give her second lecture on social hygiene tomorrow evening at 8 o'clock, when all women and girls of the city are invited to gather at the Star theatre to hear her.

There are now very few persons in Oregon who do not know of the splendid health record of this state. In the first million draftees, while the average state sent thirty venereally diseased men per thousand into the service and the state with the highest percentage sent eighty-nine per thousand, Oregon sent less than six per thousand.

This wonderful record has been made possible by the splendid cooperation of the people of Oregon during the past seven years in educational propaganda for clean young manhood and young womanhood.

There is no fact connected with the war which Oregonians may feel more fittingly proud than of this record of her manhood and of the foresight that made such a result possible.

But with our pride comes a great sense of duty—the duty to keep Oregon in the proud position she holds—to keep her standing as a beacon to the rest of the world in its struggle for clean living.

The federal government and other states are now realizing the terrible drain upon economic resources, health and morals resulting from the social evil and they are taking up the fight against its ravages. Oregon must continue to show them the way and it is upon the mothers of the state that this duty principally falls.

We must, if we are to continue the fight effectively, have an educated parenthood to give to the

young the information that every boy and girl should know. Our obligation as parents, knowing their duty and having the confidence of their children, would be much to stimulate the play from our state. It is hoped that every mother and every woman interested in understanding herself or her children will hear Dr. Richter's address here. Dr. Richter is a physician with twenty-three years practice. She has been especially prepared by the war department to give her message to women and girls and she speaks under the auspices of the Oregon Social Hygiene Society. There will be no admission charge to the lecture and no collection will be taken.

LETTERS WORK FOR VICTORY LIBERTY LOAN

Yours for the Victory Loan. A prominent business man of St. Louis has suggested that if all business letters were signed in this manner the thought of the Victory Liberty Loan would be so greatly impressed on everyone's mind that it would be much easier to raise the \$5,000,000,000 to be asked for by the government beginning with the fifth drive April 21. Make your letters work for the Victory Loan. Start in now to hunt. Make the slogan "Yours for the Victory Loan," help put the fifth drive over the top.

AMERICANS NEVER QUIT

The Germans found that the American doughboys at the front were not quitters. Let us show those dough boys that the Americans who stayed at home are not quitters. There is no better way to do this than to hold on to the Liberty Bonds we have and buy to the limit when we are asked to take more. Carter Glass, Secretary of the Treasury, said recently: "Our boys at the front in the service of the government have never quit. If you sell your Liberty Bonds you quit at a time when the government needs your continued support. Every time you quit by selling your Liberty Bonds you hurt the credit of our government and make it more difficult to finance the war. The cost of the war continues until peace is signed and our gallant boys are brought back to American soil." There is no excuse for you to sell your bonds unless you are without food or are to be turned out of your home. In a Liberty Bond you have the safest investment in the world. The credit of the United States, whose wealth is estimated at \$250,000,000,000, is a guarantee that you will get your money back. In the meantime your money will be working for you at a fair rate of interest.

Great Crowds See Trophies.
PORTLAND, April 3.—Reports received from Southern Pacific towers where the Northwest war trophy train made stops are that people have turned out in great numbers to see the mute testimonial of "Big cruelty." Interest has been added by the presence of veterans from overseas service who were able to explain to the home folks some impressive incidents of their own experience in demonstrating the war use of different exhibits. At Ashland, Medford and Grants Park the crowds were so great that it was with difficulty the train was able to proceed in time to make the schedule.
