ISLAND CITY NEWS  
Mrs. Gene Sellers has returned home from Jefferson, Iowa, where she was called a few weeks ago upon word of her mother's death.

ROY GRANDY MARRIED  
Roy Grandy, son of City Commissioner W. D. Grandy, has returned home from an absence of five weeks in Arizona. The object of his trip south will be easily inferred from the fact that he returns with a bride, whose former name was Miss Cora Hindman. The wedding took place on a recent date at the home of the bride's parents near Phoenix, Ariz. and Mrs. Grandy will make their future home in La Grande.

BRIDGE BURNED OUT ON SOUTH ROAD TO COVE  
Travelers who were over to Cove Saturday report that the bridge known as the slough bridge, about half way between La Grande and Cove, one the south road, was burned out a few days ago and that it is much better for motorists to take another road than to waste time, time and gasoline trying to get around by going a roundabout journey through the fields, or coming back another way. The bridge, which had a thirty or forty foot span, was burned several days ago. It is said that a couple of fishermen visited the spot and left a fire burning that crept up to the bridge after they departed and destroyed it.

MOTORS UP FROM BOISE  
Grover Grinnett and B. C. Hamilton went to Boise on No. 18 Saturday night and yesterday made the return trip in a new Cadillac eight cylinder, four passenger car for Mr. Grinnett. They found the roads in very satisfactory condition and made the journey in nine hours running time. Mr. Grinnett is well pleased with the performance of his new car.

The team work of the different aggregations has developed wonderfully in the last month. The games tomorrow night will be fast and exciting all the way.

Plays all makes of Records at their Best

## This Test Reveals a Phonograph's Tone

Ask to have piano records played—the most difficult test of sound reproduction. The Brunswick has proved its merits under this ultimate trial, for it reproduces piano tones faithfully.

On the Brunswick, piano records retain their original quality. They cannot be confused with the harp or zither. This is due to the Brunswick Method of Reproduction.

Before you buy, or even if you already have a phonograph, come in and hear The Brunswick. Put it to any tone test you wish. Let us play the most difficult records for you. You will be delighted with the way The Brunswick plays them all.

The Ultona All-Record Reproducer and the all-wood Tono Amplifier are exclusive Brunswick features. And they are integral parts of the instrument—not attachments in any sense.
