580 Acres For \$7500.00 100 acres in good state of cultivation. 60 acres more adjoining can be broken out. Balance in all fine brush grass pasture. Small creek running through one corner; several springs; small, nearly new, house; on a main road; 3 miles from shipping station; 2 miles from school; all fenced and cross-fenced. This is only \$12.00 per acre, just a fair price for pasture land. The tillable land on this tract will yield as much per acre as the land in the valley that is now selling at \$150 per acre. This is one of the best and cheapest propositions we have ever handled. There is a mortgage on the property now for \$3500, which can be assumed and the owner must have a good substantial cash payment for his equity. SECURITY LAND AND SAVINGS COMPANY La Grande, Oregon.

The Economical Corset THE WAR HAS TAUGHT US THE MEANING OF TRUE ECONOMY When the government urged conservation and economy, it recommended the buying of quality articles that would give the maximum wear. The mistake idea that economy meant the purchase of cheaply made articles was removed forever. MODART CORSETS Front Lace are made from carefully selected, high grade materials only. MODART boning, cloth, thread, tape—all are quality materials. The boning in particular—that factor upon which the style and shape of a corset so much depends—is made especially for the Modart Company from stock spring steel—the most perfect boning ever produced. It will not rust or take a permanent bend at the waistline. Every MODART Corset gives a high degree of satisfaction in wear and shape-retaining qualities. All MODART Corsets lace in front—because front adjustment means right adjustment. The absence of laces at the back gives form and wonderful smoothness in gown fitting. A trial fitting convinces. You have to put on a MODART to see its style and feel its comfort. Style and comfort are not easily explained. Make a request for a trial fitting in our corset department before planning your spring clothes. Pauline Lederle
