FARM HELP SCARCE AT NORTH POWDER

HARLEY LAUGHLIN OWNS TWO FORDSON TRACTORS—THREE MORE SOLDIERS RETURN—SCHOOL WILL HAVE PLAY—STOCK RANGE IN FINE CONDITION

NORTH POWDER, May 2.—(Special)—Farmers in this section are very busy putting in their crops. They report that some of the fall seeding has to be done over again.

For some reason the fall grain did not come up and lots of it is being replanted. Spring grain is up and coming on fine. Help is reported very scarce and hard to get. Many want work but do not want farm work. This makes it very hard for the farmers and at the call for increased production to feed the world is very discouraging to ranchers.

Harley Laughlin who owns a large ranch on Clover Creek recently purchased two Fordson tractors and has them plowing on his ranch. They are reported to be doing good work and make farming easier and faster than horse power. Mr. Laughlin has nearly two thousand acres to farm. He is trying to find a tractor that will take the place of horses on his farm.

Bryce Denning, Oscar Gorham and Robert Burdette have returned last week from overseas service. These young men enlisted in the very beginning and have returned safely home and are gladly welcomed by parents and friends.

John Hollinger died at the Baker hospital a few days ago. Mr. Hollinger has been in poor health for some years and recently went to the Baker hospital hoping that the treatment there would benefit him. He leaves a large family to mourn his passing.

Carl Forstrom is resting up preparatory to going to Hot Lake to have an operation.

Willis Walk, who spent a few days in North Powder, visiting with friends left for other points last Monday.

Miss Lenora Hughey spent a few days visiting with her mother. Miss Hughey is employed at Well's store in Baker.

A school play is scheduled for this week and it is hoped that it will be liberally patronized by all as the proceeds will be for the benefit of the school.

Floyd Wilshire has sold his farm on Wolfe Creek to Howard Stoen, who will move to it as soon as school closes.

Mrs. C. J. Law visited at the home of her parents, Mr. and Mrs. F. S. Heard the latter part of the week.

A hard wind storm struck this section on Friday morning and continued all the day. It turned quite cold and was very disagreeable.

Streams in this section were rising rapidly and starting to overflow the banks but the recent cold spell stopped the flood.

Mrs. Lillie Law made a business trip to Baker on Monday evening.

J. E. Lenhart who was at one time a well known resident of this place but who now resides in Baker, will leave for Philadelphia where he will undergo an operation for the restoration of his eye sight.

Mr. Lenhart has already had one operation that has benefited him and hopes that this operation will restore his sight completely. Mr. Lenhart was in the grain business here for some years and has a large circle of friends that hope for his complete recovery. Mr. Lenhart's family will accompany him.

Henry Wallace is pasturing a large number of horses out on C. J. Law's ranch. The pasture is fine out in that section this year and stock of all kinds are getting fat.

A number of the ranchers are busy irrigating as there is a large surplus of water that is now going to waste and later in the season some of the streams will be almost dry. It is to be hoped that the government will build reservoirs to store

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, setting up inflammation. Before the attack of gout or rheumatism there is sometimes headache, what is thought to be neuralgia, or rheumatic conditions, such as lameness, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid we are able to affect by exciting diuresis." Drink copiously of water, or eight glasses per day, but state before doing so, and obtain Anurio tablets, double strength, 100 cts. at the nearest drug store, and take three times a day. If you want a trial package send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

"Anurio" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than light, for it dissolves uric acid as hot tea dissolves sugar.

The same flood water that now do so much damage and would increase the yields of thousands of acres of fertile Oregon lands.

WILLIAM ARTHUR McCLEURE

William Arthur McCleure, son of Mr. and Mrs. William E. McCleure of this city, was born on the 11th of January, 1903, at LaBelle, Fremont county, Idaho, and died at Hot Lake Sanatorium, Hot Lake, Oregon, April 28, 1919, aged 16 years, 3 months and 17 days. He leaves to mourn his loss his father, mother, brothers, Harry, Lester, Elmer and James, and a baby sister, Ruth, besides numerous relatives, and friends.

He was first taken sick during the latter part of 1918, but had recovered sufficiently from this illness to be up and around during the latter part of February, 1919. About the middle of March he contracted pneumonia, and on April 4th, was taken to Hot Lake Sanatorium, where he died of undissolved pneumonia on April 28th.

"Art," as he was familiarly known, spent most of his life in and around La Grande and was a member of the La Grande High School up to the time of his first illness. He was a boy of exceptionally good habits and very thoughtful of others. His wonderful patience and cheerfulness during his long continued illness endeared him to all who assisted or visited him during his time. He was loved by all who knew him and his loss will be greatly felt by his family and many friends.

Funeral services were held at the First Methodist church May 1, 1919 and interment took place in the I. O. O. F. cemetery.

The Place You Get Everything You Want
Every Day at the Price You Like to Pay.

AT LAST —

We draw the enemy fire; we didn't suppose they would admit that we existed—PROOF that our plan is getting the business, else they would ignore us.

We haven't robbed any hen house, or the meat-buying public; our conscience is clear; we sort of like this mud-slinging—we are getting lots of free advertising out of this ocean of ink our honorable competitors are spreading in an effort to stop the stampede of their customers to our market. They cannot fool the people forever, for they know

WHO IS WHO

—Who has lowered the prices, who has kept them low, who has compelled that competitor to resort to baits to save his bacon; and then some more—

WHO

—Who wants to live on half like Pic Hams, Pork Shoulders, Spare Ribs and Hog Livers? Even a fish wouldn't bite. As to quality, it speaks for itself; again we assure you that you will never be able to buy frozen meat from us, that has probably been in storage for months—you know that kind of quality, if you have been unfortunate enough to have purchased it elsewhere—Never from us.

Now as to this mighty capital and great equipment our competitors prate about—more ink for us—with our smaller capital (but sufficient) and less expensive equipment (but sufficient), coupled with our modern way of doing business—(buying and selling for cash)—we are able to do business at much less expense.

WE SELL IT FOR LESS.

Remember, we have our own efficient delivery—No extra charge to you—it is prompt and reliable. Use it. Phone Main 32, ask for Meat Department.
