

POTENCY means Power

If it requires ten-horse power to start a certain piece of machinery, a nine-horse power engine won't answer. It will be no better than no engine at all. You must provide additional force or all of your power will be wasted.

So in Medicine. If a drug of a certain strength or potency is required to stop the progress of disease, a weaker drug will be no better than no drug at all. We think of these things. That is why you can always see products of the world's best chemists on our shelves.

The drugs which we handle are pure and of standard strength.

Don't Suffer

MANY men and women are suffering because they are treating effects instead of removing causes.

Why bother with liniments and lotions for rheumatic pains, backaches, stiff joints, sore muscles, nervousness, ringing specks in the vision, dizziness, puffiness under the eyes, or other symptoms of kidney trouble when the kidneys can be made well and strong, thus removing the cause of the symptoms?

Poley Kidney Pills

have been used for kidney trouble and bladder ailments by men and women with success for many years. They serve to get rid of the waste, invigorating and strengthening the body and purifying the blood, and clearing the kidneys and bladder. They relieve the kidneys of the burden of the waste and remove the cause of the symptoms.

W. W. Wainwright, 2809 Broadway, San Francisco, Cal., writes: "I have suffered with kidney trouble for many years. I have tried many remedies but have not found relief until I began to take Poley Kidney Pills. I feel better now than I have for many years. The only thing I have done to get relief from was to take Poley Kidney Pills. I feel better now than I have for many years. The only thing I have done to get relief from was to take Poley Kidney Pills."

PITCHE WILD HUNTERS

LOS ANGELES, Calif., May 14.—A mummified human head, shrunk to the size of the average orange, has just been presented to the Museum of History, Science and Art, in Exposition park, Los Angeles, by Mrs. H. M. Parker, of this city. It is said to be one of seven of the kind in the United States.

The head of a Jibero Indian, of Southern Ecuador, it was obtained from a trader in South America by a brother-in-law of Mrs. Parker. Small as it is, it is covered by a luxuriant growth of long, black hair.

The Jibero Indians are among the fiercest head hunters in the world according to Mrs. Parker. Instead of scalping their victim, as was the custom of the Indians of North America, they remove all of the bones from the head and embalm the remaining flesh.

WARM SPRINGS FAR NORTH

ANCHORAGE, Alaska, (Correspondence of the Associated Press).—Government railroad engineers making soundings for bridge across the Susitna river 121 miles north of Anchorage have determined that warm springs underlie a part of the river. In the ice of the river early in the spring each year a rift about 1,000 feet long and 25 feet wide occurs, they report, and this open stretch of water does not close until the freezing weather of the following winter. The rift in the ice precedes by nearly two months the movement of ice from the lower stretches of the stream.

WHALE KILLING APPROVED.

JUNEAU, Alaska, April 12.—(By Mail).—Whale killing in Alaska waters was given the official sanction of the territorial legislature when a memorial passed by the senate asking for abolition of whale killing was rejected in the house.

The Place You Get Everything You Want
Every Day at the Price You Like to Pay.

Good Merchandising---

Some merchants consider the old method of large-long credits to their customers, with its sure losses, extra expense and unnecessary service, good merchandising.

WE DON'T

—and from the testimony of men high in the modern business world of today, we are right, and from the ever-increasing popularity of our market, we know that we are right.

Quality meats, which we sell for less, is possible because we buy it for cash and sell it for cash; the place where you don't pay the meat bill of some one else, or pay for anything else you don't get. Don't be deceived by the squawk of our competitors—do you think for one second that they would lower a price, or even offer you a bait (which they admit doing) if it wasn't for our activities—YOU KNOW THEY WOULDN'T.

We are setting the pace that they cannot make, if meat is cheaper in La Grande than in any other city in Oregon (and we believe it is) it is us that you can have to thank WHO DESERVES YOUR PATRONAGE?
