ALIENS RETURN TO OLD LANDS

GREAT EXODUS FROM STATES SINCE NOVEMBER

Custom Officials Fear Result Will Be Great Labor Shortage in This Country

New York.—Enriched by war work, aliens are leaving this country at the rate of more than 1,000 a day, it was learned here from custom officials, who expressed fear that, with the possibility that congress may limit immigration for the next four years, the United States will face a serious labor shortage, instead of a condition of unemployment.

Since the signing of the armistice, it was said, Italians, Greeks, Spaniards and Portuguese have been pouring out of the United States through this port. Since November 70,221 passports have been vised at the custom house, and since December, 33,000 aliens have sailed. Every ship clearing for Mediterranean ports has sailed with a full steerage, so that rates have jumped from $40 to $80.

Custom officials estimate that an enormous sum has been taken out of the country since the exodus began. Each alien, it is said, carries with him from $1,000 to $7,000 to enable him to live in his native land in greater ease than he ever enjoyed before. Since April 2, when all outgoing passengers were forced to pay their income taxes before leaving, more than $68,000 has been collected.

Byron R. Newton, collector of the port, who has been asked by members of the United States senate and house immigration committee to reduce the exodus to statistics, said today more than 90 per cent of the aliens are Italians, and that "something ought to be done to check the outflow."

HOME FOR GIRLS GOING TO CITY

PORTLAND STARTS MOVEMENT TO MAKE HOMES FOR WORTHY ONES

The Idea of movement Is to Keep Good Girls Good While in the City.

Every citizen of Oregon is about to be offered an opportunity to contribute to the health, happiness and general welfare of its hundreds of young girls who annually go from the smaller towns and country homes of the state to Portland. It is conservatively estimated that there are in Portland 5,000 girls and young women without homes and home influences, of these hundreds come from every section of the state seeking training or employment. Most of them come with limited funds and with little knowledge of the ways of the city. It is to meet the need of giving these young girls the happy, wholesome living conditions with proper safeguards and at a moderate rate that they should have that a committee of prominent citizens of Portland have recently purchased The Virginia Hill hotel in that city with a view to converting it into a residence hall for employed girls to be known as The Jeanne d'Arc in memory of the French heroine and patriot. The new hall will be conducted by the Sisters of Mercy.

A $100,000 drive is about to be launched to finance this new project and as the girl from the smaller town and the country home is to be benefitted more than any other by this new project, the drive is to be made statewide in scope.

The beautiful new building six stories in height is located in a good residence district, is in perfect condition requiring no alterations.

It is thoroughly modern in every sense, with hardwood floors, elevator and a fine heating and lighting system. There are more than 30 private baths and every room is an outside room. Girls will have the privilege of doing their own laundry work and their own sewing. It is within easy walking distance of the business center and within one block from two car lines.

Girls are admitted regardless of religious affiliation or belief. Assistance is given girls to secure employment and in case of illness, loss of position or other misfortune, provision will be made without personal embarrassment. The charge made at the new residence hall will be remarkably small. The Sisters give their services entirely without recompense and the charge made will be wholly based upon the cost of food, fuel, light, water, etc. Thus a girl may enjoy the happy surroundings that under other circumstances would be far beyond her means, meanwhile being assured of the protection offered by such an institution.

For the thousands of employed girls and young women in Portland there are accommodations for a few more than 100. One institution whic accommodates 80 girls, has the astonishing number of 150 on its waiting list, does not that answer the question? Is there a need for such a residence hall for girls?
