

Home Seekers Attention

George H. Currey asks you to look over this partial list.

150 ACRES—Near La Grande, 50 acres in timber, 25 acres alfalfa, some grain, 60 acres low; splendid barn, 5-room house; in St. Cloud. \$2500 cash, balance on liberal terms.

900 ACRES—Stock and grain ranch; 300 acres cultivated, 100 in alfalfa and timothy; well fenced and watered. This farm rents for \$1500 cash. About 15 miles from La Grande, on good road. \$8000 cash, balance easy payments.

100 ACRES—145 acres in spring wheat, fine stand. The owner guarantees the crop will be worth \$6000; he is perfectly safe 20 bushels to the acre will do this; the largest crop ever reported grown in the valley was grown on this place—129 bushels to the acre; a wheat crop of 45 bushels was raised on portions of it last year. Near La Grande, 7 miles. Entire tract can be irrigated. Was all in alfalfa three years ago. The price is \$21,000 and the guaranteed crop brings it down to less than \$100 per acre. This bears investigation.

100 ACRES—Two miles from Union, northwest; 85 acres in grain, 10 acres in alfalfa; good buildings. If you will estimate the alfalfa yield at only three tons and the price at only \$15 per ton, the grain at 20 bushels, deducting \$600 for harvesting—this splendid land will only cost you \$107.50. Water rights for the entire tract. Price is \$14,000.

185 ACRES—Near La Grande, 100 acres cultivated, more than 40 acres of the pasture land can be 55 acres in grain; 31 in commercial apples; trees full of bloom, not injured by frost; a good 6-room house, large barn; water from large spring piped to house; well fenced; some valuable timber; fine pasture. The price is \$11,000 cash. I will make you a loan of \$6000, either on short or long-time period. If you have \$5000 in cash and want a farm, don't fail to look this over.

25 ACRES—Eight miles north-east of La Grande; Sandridge land; improved. Price \$3000.00. Enough said.

40 ACRES—Near Summerville; improved; 4 acres in alfalfa, 6 acres in wheat, 5 acres in timothy, 3 acres in potatoes; nicely located. Price \$3000, terms.

100 ACRES—Right close to Union, all in crop. Price \$19,000. If purchaser is a substantial citizen the terms can be made most reasonable, \$2500 now, \$2500 this fall, and long time balance. Well improved, well fenced, water right nicely located; splendid land. Will bear investigation.

60 ACRES—330 acres in spring sown grain, 230 in fallow. Price \$85 per acre, \$15000 cash, balance on easy terms. With ordinary weather conditions the growing crop should more than make the first payment. This means after deducting harvesting expenses the land will only cost the purchaser \$65 per acre.

15 ACRES—In Fruitdale; all in grain; no trees on this tract. Owner also owns 10 acres, well improved and in crop. These tracts can be sold separate or together. The 10-acre tract is priced at \$3000 and is one of the best buys in that vicinity. The land on both tracts is the very best.

THE OLDEST CITY

"Pearls of the East" Was Called By General Allenby

Called by Oriental "The Pearl of the East," Damascus, General Allenby's great capture of the oldest city in the world still inhabited, is mentioned repeatedly in the Old Testament which places the ancient city dates back to 1100 B. C.

Travelers refer to it as "Dear dirty Damascus," for its odors are many and strong, and its streets are long and narrow.

One of the city's main features is silver in wavy lines, has passed on St. Leo's school, Tacoma.

"the sweet which is called Straight," which runs from east to west. Damascus has been the scene of many conflicts since David sent an expedition against it and took it. A shepherd of 20,000 men, Syrians, Samaritans, and Turks fought so repeatedly for it that it has become the most captured as well as the oldest in the world. Its bazaars and fairs are world-famous. Damascus also, an ancient seat, and jewelry are the most exquisite anywhere in the world. The name of its Damascus work in steel, which consists in inlaying fine steel with gold or silver in wavy lines, has passed on St. Leo's school, Tacoma.

Slater Agabolia died at Anthony's hospital in Portland Friday night. She contracted pneumonia last January and her death was the result of protracted illness. She was a Bostonian and after entering the sisterhood was stationed at St. Francis Academy, Baker, for many years. Later she was transferred to St. Leo's school, Tacoma.

Your Other Brain

Down in the abdominal cavity lies a great "plexus" or network of nerve centres, that has been called the "abdominal-brain." It cannot think. Its functions are to superintend and keep in operation various mechanical processes, such as the proper secretion of moisture by intestinal glands and adequate action of intestinal muscles in the walls of the bowels.

It receives messages from nerves in various regions of the body, but being unable to reason, it often acts blindly, imperfectly, or improperly. It may stop secretion, lessen muscular action—and the result is constipation.

Castor oil, pills, salts, mineral waters, etc., do not reason with the abdominal brain, they force it to temporary action, to unnatural effort, until the bowels move. But this is followed by a sulky attitude or even a "strike" by your other brain, and the constipation is increased not cured.

90% of human illness results from self-poisoning, caused by constipation.

But Nujol acts differently. Nujol is not a drug, does not act like any drug.

Nujol acts mechanically to clear the bowels to move easily and thoroughly at regular intervals.

Nujol supplies necessary moisture to bowel contents, makes it easier for tired intestinal muscles to act, absorbs poisonous matter, overcomes stagnation and by so doing persuades the abdominal brain to act rationally and efficiently. Nujol has no deleterious after effects, forms good habits instead of bad ones, overcomes constipation at any age, under any conditions.

Get a bottle of Nujol from your druggist today and send coupon for free booklet—"Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.
