Misses Stoddard, Lynch, Pearson, Coolidge, Messrs. Thompson, ..
Larroy
Presentation of Diplomas—H. M. Du Bois, Principal of La Grande High School.

Thomas J. Anderson, a resident of Linn county for 40 years, died Monday evening at his home in Harrisburg.

FARM WORK WELL IN HAND

(Continued from Page 1)

affected is relatively small. Some little damage was done by frost and cold winds. Spring wheat, oats and barley are germinating well in some localities and have been helped by rain but need more moisture. Seeding is still in progress in some elevated localities. A few apples are reported from Polk county and grasshoppers are doing some damage in Klamath county. Planting of corn is progressing rapidly though over, some very small areas, planting was stopped by rain. Warmer weather is needed for corn.

The weather was generally favorable for fruit but there is still complaint of apples, cherries and prunes dropping. Strawberries are plentiful in Douglas county and are ripening in other localities. Early cherries are turning in Umpqua county.

The growth of alfalfa and clover has been retarded by low temperature and lack of sunshine. Other hay crops have generally made a good growth. Meadows and pastures have been revived by rain in the western counties, and to a limited extent elsewhere. More rain is needed. Stock continues to make good gains, and shearing continues. Some sheep have been poisoned on the range in Lake county.

Planting of potatoes continues, and early potatoes are growing well. Gardeners need warmer weather and more sunshine, the report declares.

ORDER OF GOLDEN STAR

Perpetuating the memory of those who died for their country it is the special duty of a new organization recently started at Omaha, Neb., to be known as the Order of the Golden Star—the national symbol of the service flag. Fathers of those who were lost are eligible of those who were lost are eligible to membership. Thus we shall have another guarantee that the American tradition of Dedication day, which followed the civil war, will continue.

Starting four years ago with a capital of only \$1000, Jess Hanson, a farmer of Polk county, has cleared \$24,000 from chickens.

CUREW LAW TO BE ENFORCED

(Continued from Page 1)

and all children 16 years of age and under are required to be at their homes by 10. The city intends enforcing the ordinance in earnest and youngsters must not test the time limit will be strictly handled.

The proposition between the city and the county for the transferring of ownership of the court house, received some further discussion. The price of \$200,000, which was asked by the city for the building, seems to be fairly satisfactory, but the question of which is the proper party to make the repairs necessary on the building is the point under dispute.

An item in the city manager's report which he asked should be brought to public attention, was the suggestion that whenever a fire alarm is rung in some person should remain at the box from which the alarm was sent in order to direct the firemen to the scene of the trouble as soon as they arrive. Much valuable time is lost when the brigade has to find its own way to the blaze, he said. The suggestion was brought forth by the occurrence of an incident of this kind at the fire which occurred last Sunday afternoon.

A number of other minor matters of business which came up were left over until next week.

The city manager's report for the week is given elsewhere in this issue.

Pure Ice Cream is what makes fine Ice Cream Sodas and Sundaes at Silverthorn's Fountain—you can always depend on getting the best. They use only the best best of everything. Their chocolate sundays and sodas are very fine. In warm weather they always have elegant sherbet. 5-1817

Guard the Family Health

Health is often endangered by unsanitary cooking utensils. Physicians have found that cancer is caused by enamel ware chipping off and irritating the stomach.

If you have children or invalids in the family beware of cheap cooking utensils that crack, scale, peel off, tarnish or rust. Disease germs lurk in the worn places and there is further danger of tainting the food. Health is too precious to take risks with it.

Be safe. Use

"1892"

Pure Spun Aluminum Cooking Utensils

which are guaranteed for 15 years constant service and will never spoil food nor endanger health.

This new ware is featherweight, beautiful, easy to clean—does not tarnish nor rust. The slight extra cost is more than made up by long service and absolute safety.

Look for Trade mark on Every Piece

The "Maltese cross with the words Pure Spun Aluminum" is the original, insures that you get the genuine. There are imitations, so be sure this trade mark is on every piece.

A HOT SPOT Chalmers Responds Like a Spirited Horse

THE huge, road rolling type of motor car with gigantic engine has less friends than once it had. For everyone nowadays likes "life," get-up-and-go, in a car just as he or she does in a human being, or an animal.

That's why the Hot Spot Chalmers has won friends in ever increasing numbers.

It has the ginger of a spirited horse.

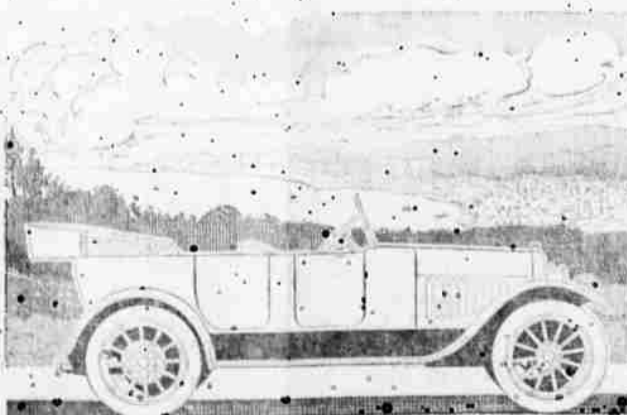

Ask for a little and you get more than you ask.

All because its great, magnificent engine "chews up" gas and delivers power results in uncanny fashion.

Hot Spot "breaks up" the gas so that when Ram's-horn dispatches the "powdered" gas to the cylinders you get every particle of power nature put into gas.

Hence a brute type of an engine is not found in a present day Chalmers, but a medium sized engine that delivers a wallop with a silky smoothness almost beyond belief.

Ride once with your foot on the little burton of a Hot Spot Chalmers and your conception of a motor car is changed; thereafter you too will say Chalmers is one of the few great cars of the world.
