TONIGHT IS THE NIGHT OF BAND BENEFIT DANCE

Tonight, from 9 o'clock until 12, there will be music and bright lights and a big crowd at Rex hall, where hard floor will once more feel the rambles of dainty feet, and the dainty feet, perhaps will feel the pressure of heavier and clumsier ones. However, that all goes with the good time, and the O.W. band, who are giving the dance tonight give assurance that everyone will have a good time, unless it should be some one who is unalterably opposed to having his crouch rubbed off. The band invites all dancers to come and enjoy the evening with them. They need the money, and the people need the good time to offset the toil and tediousness of the business cares of the day.

Keep Sweet.
Losing the temper takes all the sweet, pure feeling out of life. One may get up in the morning with a clean heart, full of song, and start out as happy as a bird, and the moment he is crossed and gives way to temper the clean feeling vanishes; and a load as heavy as lead is rolled upon the heart. Be the master of your temper and you hold the key to joy and contentment.

Steel and Iron.
Steel is a kind of iron which can easily be hammered out thin without cracking and can be made extremely hard by being heated and then cooled quickly. It is different from ordinary iron because of the amount of carbon in it. Wrought iron contains less carbon than steel and so it cannot be made so hard; cast iron contains more and so is brittle.

Optimistic Thought.
Against stupidity the very gods fight in vain.

DR. H. M. BOUVY AND MRS. BOUVY RETURNED TODAY

He was met in Chicago on his return by Mrs. Bouvy, who during his absence from La Grande, had been making 2500 hours in Portland. They will return to Portland this evening and will be in La Grande again the first of June, to remain permanently. The doctor will resume his practice here.

With all his fine experiences Dr. Bouvy is still loyal to La Grande and Oregon. It's the best place, he says, that he has seen yet. Friends here are glad to see him home again, looking well and fit.

Country's Dark Days.
The saying, "not worth a continental," came from the fact that the continental currency, issued by the continental congress, was worthless, or nearly so, during the revolution and after. As the continental congress had no power to levy taxes it was unable to redeem its promises to pay. Besides, the country was flooded with counterfeit which could not be detected.
