Returning Odd Fellows tell great stories about the Salem convention. The stories are so great, in fact, that some one may wonder if the prohibitory law applies to the state capital when the legislature and the State Odd Fellows are in session. Brother Sail is authority for the statement that some of the La Grande Odd Fellows liked Salem so well that "they don't wanta come home." He says Mose Ellege is marshalling a force of La Granders around the capital and they have filed Hunter's and Eberhard's seats in the legislature for the next turn of the wheel and have made friends with the Salem political machine, which is not a small task.

AROUND THE EDGES

With Cove coming to play ball on Decoration day there is reason to believe that Judd Geer will wear that silk stove pipe hat which he has hid away since he used to be in state politics. The Cove team has offered Judd the job of manager and have promised to make him the Gerry Hermann of Eastern Oregon if they can succeed in putting Claude Scranton's colts in second place.

Here's hoping Mr. Kelsey and Mr. Collier find a hidden stream in the upper country that they can turn into the water system without too much work.

The Union Stock show is becoming a place for demonstration of different articles of merit. This year automobile men will be there with their demonstrations and Bert Hamilton will probably send that Mercer around the track a few times just to show the people what the auto races will be in La Grande on the Fourth of July. Nate Zweifel has also twigged the demonstration idea and he is going to give Light Mr George Benson and the rest of the bunch in the wee small hours of the night.

The Elks who visit Baker Tuesday will have a few things presented to them that they little expect, for it is asserted that a Mountain goat has been captured by the Baker crowd for the big initiation on that date.

John Casey, who has suffered the tortures of the damned with rheumatism for mony months, is walking like a school boy agin. He says there is nothing like God's sunshine and good warm days to combat old Major Rheumatism with.

Jerome Foley denies the allegation that he has a girl in Paris and asserts in strong language that in his whole visit to Europe he never saw a foreigner that looked half as good to him as the girls of the Grande Ronde valley. And Jerry is some judge when it comes to passing on the girl question.

Not many of the schools kids are worrying about what the teachers will do during their vacation.

Larry Larison is to have a good roads meeting at the city park and he says without fear of contradiction that it is the duty of every human being to be present when he wants to save over a million dollars for this county.

How times have changed, said the old Grande Ronder yesterday, when he came in to buy his week's supply of tobacco. This is the time of year, he asserted, when it used to be quite the thing for men who owned fine horses to parade them around the streets, but look at these smart young chaps out with their prancing automobiles and not a horse in sight. Yes, times have changed.

that by hiding his head in the sand his whole body is concealed: Foolish?—Yes, but not more so than that credit meat dealer who, by peddling at lot of "bull" about his great capital, great equipment, great stocks of meat (probably cold storage), great variety, and his great love for the wage-earner, thinks he can convince the people that he is any real competition for the cash market. You can bet your last dollar—and have a cinch—that they wouldn't even offer you a special price on those famous baits of theirs, if it wasn't for our activities. Do you remember, up until the past few months, of this great meat corporation ever making any noise about their low prices?—WE DON'T—we wonder why they waited until meat was the highest in history to make all this noise. We believe that they and their ads. are a joke—and we know of lots of people who believe the same. —(Continued Monday.)
