#### BAIT TEAM TO HAVE SOCIAL—IMBLES MATRONS AID VISITORS—TROUT FISHING NOTHING EXTRA

PERRY, May 26.—(Special).—Tuesday Mrs. Saffie Connor was hostess to the Imbler Social Aid Society, the members having decided to come to Perry for their May meeting because Mrs. Connor was formerly associated with the society for about three years. Four auto loads came up immediately after noon and after holding their regular monthly business session, the remainder of the afternoon was given up to a social time. For refreshments the ladies were served with ice cream and cake. Those attending the meeting in Perry were Mrs. Nora Balch, Mrs. Nobe Childers and son, Mrs. Coble, Mrs. C. J. Pratt, Mrs. Larson, Mrs. Roe Ginn, Mrs. J. A. Osborn, Mrs. William Glenn, Mrs. Derris Wiley, Mrs. George Crouser and two children, Mrs. Spencer, Mrs. Bellamy, Mrs. Bellamy from La Grande, Mrs. J. Gaskill, Bonnie Osborn, Wilma Gaskill, and Rosemary Hurley. J. A. Gaskill, Rose Ginn and Dave Osborn came along as chauffeurs and went fishing while the ladies held their meeting. The Imbler visitors left about five o'clock, expressing their selves as well pleased with their short visit in Perry.

Born to Mr. and Mrs. Farley at ten, Tuesday evening, a girl baby. At the Royal Legion meeting Wednesday evening Harry Hanson was appointed as manager of the baseball team and it was decided that the boys give a social in the near future to aid the ball team in getting supplies. Ex-soldiers and sailors are not to be charged the regular membership fee for admission to the society. Other matters of local interest were discussed. James Knight was unable to work for the last few days on account of sickness, but is better at this time. Born, Wednesday, to Mr. and Mrs. Ed Pfeil, a baby boy. On the evening of Monday, the 26th, a good roads meeting was held at the school house at this place. Larry Ferguson, Fred Higgins and Albert Gunter were up from La Grande to boost for the road measures to be voted on at the special election. Earl Stoddard, representing the Grande Ronde Lumber Company was also present and assured the voters that the company could be counted on to support the bond measures. Al Baber and family were on from Willows for a few days this week. Several auto loads of Perry's trout fishers went up along the branches of the Grande Ronde Sunday but owing to the rain not many reported very good success. A break of the machinery at the mill caused one side to stop down for a few hours Friday.

### HAWAIIAN LEGISLATURE WAS EXTRAVAGANT

Movement For Statehood Early in the Session, Allowed to Go to Sleep.

HONOLULU, May 1.—(Associated Press, By Mail).—When the sixty-day session of the Hawaiian legislature ended at midnight last night, bills appropriating a total of \$14,844,093 had been passed, according to A. Lewis, Jr., chairman of the house finance committee. In the last hours of the session a resolution was adopted authorizing the governor to appoint a commission of four, two senators and two representatives, to attend the next session of congress for the purpose of assisting Delegate J. Kihio Kihianohi to obtain the enactment of legislation affecting Hawaii. Revision of the land laws to promote homesteading of public lands in Hawaii will be especially sought. A movement for statehood, prominent in the early days of the session, was more or less lost sight of before final adjournment. An increase of approximately one-third in the salaries of public school teachers was granted by the legislature, bringing the minimum salary to a little more than \$90 a month. Provisions were made for raising the College of Hawaii to the status of a university. As a federal farm loan act does not extend to Hawaii, the legislature provided a revolving fund of \$200,000 from which loans may be made to farmers of the territory under certain conditions. An appropriation of \$25,000 was provided for preliminary work in the establishment of a fish hatchery in Hawaii, for the propagation of food fish. It is hoped to have the federal government take over this work. A bond issue of \$200,000 was authorized for the establishment of a war memorial park on Waikiki beach. Liberal appropriations were made for harbor improvements in Honolulu and for the construction of new roads on all the islands of the territory. Carrying the provision that at least three other countries bordering on the Pacific must make similar appropriations, a fund of \$10,000 was made available for the proposed Pan-Pacific Congress of the Pan-Pacific Union, to be held in Honolulu next year. The two measures over which developed the hottest fights of the session—woman suffrage and regulation of the foreign language schools—were both defeated. Woman suffrage by direct legislation was beaten and a bill providing for a plebiscite on the question also failed of passage. The foreign language school bill, which would have placed all schools in the territory, public and private, under the supervision of the department of public instruction, with non-certificated teachers eligible for the instruction of pupils, was vigorously opposed by prominent Japanese residents, who contended that its enactment would force the Japanese schools to close.

### ALICE NEWS NOTES

The Physical Geography class of the Alice High School took a hike to the hills, near Mt. Harris, the other day, to study the science of geography. One of the boys had the misfortune of taking a misstep and rolling down the hill. Though he escaped much excitement, he was not seriously injured. All reported a very enjoyable time. The Lone Star eighth grade pupils, Pauline Woodell, Ruth Vandenberg, Ina Webster, and Lawson Webster, after working faithfully during the school year passed their eighth grade examinations with an average of 99 per cent, which is credit to the class and their teacher, Mrs. R. O. Watkins. Ed Clark is visiting at the home of his parents, Mr. and Mrs. E. F. Clark. The Alice pupils, Ray Ledbetter, Harold Wallinger, Orville Wright, Nancy Van Housen, Ruth Johnson, and Ruth Schaefer, who finished their four year high school course at La Grande last Friday, have

turned home and are proud of the ability to do other work than translate Latin or explain class-ics. The Shelton, a freshman, Minnie and Ina Watkins, juniors of the Alice high school were exempted from all the final examinations, and it is worth while to study in order to get a week's vacation before school closes.
