It's looking like a fine, cool night for dancing and Claude Seranton expects to see all his friends and everybody else's friends at the dance in Rex hall tonight.

Ancient Gambling Games.

It is known that from the earliest Roman times the games of tall and tesseræ were played with dice, but their invention has been attributed by the Grecian poets and sophists to Palamedes, who in 1244, B. C., joined the Greeks in their expedition against Troy, where, by some writers, Palamedes is said to have been slain by an arrow from the bow of Paris. In addition to the invention of dice, Palamedes is said to have invented light-house, measures, scales, the discus, the alphabet and the art of regulating southsies.

NOTICE TO WATER USERS.

There is grave question as to whether the Beaver Creek pipe line will carry sufficient water to supply the city's needs during the irrigating season and it will be necessary to conserve the supply as much as possible.

Water users are therefore asked to irrigate on alternate days from this date and until otherwise notified. That is, those occupying even-numbered houses to irrigate on even days of the month and those occupying odd-numbered houses to irrigate on odd days of the month.

Those With Enterprise.
The enterprising person is the person who is always learning and then putting that learning to use, who is making the very best of opportunity, and creating all the opportunities which seem to offer themselves to his or her molding. In other words, what is enterprise but a busy mind and a busy person properly directed by a sane soul.

Happiness Easily Attained.

Those of us who ever stop to reason or think along profitable lines know that there are "sermons in stones, books in running brooks, and good in everything" as the poet sings. We do not have to be either rich or famous to procure happiness. If we try to keep cheerful, forget our woes and "look pleasant," our narrow sphere will take on a broad and pleasing aspect. Furthermore, this view will make us see lots of good in the folks around us and many fine attractions in our home and old "home town."

Mending Broken Glass Articles.

Tumblers, fruit dishes, lamp chimneys, globes, etc., can be mended with the following preparation: Take five parts of gelatin to one of a solution of bichromate of potash. Cover the broken edges with this and press together, then place in direct sunlight for a few hours.

Daily Thought.

Good company and good discourse are the very signs of virtue.—Isaac Walton.
