The Stormy Petrel

The birds known to sailors as Mother Carey's chickens, whose appearance is supposed to foretell a storm, are otherwise known by the term stormy petrel (Thalasidroma pelagica). The bird seems to run in a remarkable manner along the surface of the sea, where it picks up its food. The petrel is a small bird of dusky plumage, nocturnal in habit, most abundant in the southern hemisphere. The name Mother Carey is supposed to be a corruption of the "Mother Cara"—dear mother—of Levantine sailors.

Dominoes for the Blind

Dominoes for the blind are rather ingenious. Recognizing the need of something that would not easily be displaced as the fingers of the blind passed back and forth reading the numbers on the face of the dominoes, the inventor has given us a set of interlocking pieces. The mortise joint makes them hold together no matter how much they are brushed around. The number on each piece is indicated by the raised heads of brass tacks, easily read by the touch.

COVE DEFEATED BY LA GRANDE

TWO GOOD GAMES OF BALL DECORATION DAY

Cove Victors in First Game with North Powder, But Dropped Close Contest to Locals 2 to 4

Two good games of baseball comprised the celebration of the afternoon of Decoration Day in La Grande, the North Powder, Cove and La Grande aines participating. La Grande was returned winner of the day, defeating the Cove outfit by the score of four to two, after Cove had just come out on the long end of a 6-4 score in a seven inning battle with North Powder.

The day was not at all a nice one for either the fans or the players, but the boys all put up a good exhibition all around and the fans made a good showing behind them and stuck until the end of the afternoon, in spite of the cold and the wind. How much larger the crowd would have been had the weather been nice was indicated by the statement that about forty automobile parties from North Powder had prepared to accompany their team here, but had been influenced by the disagreeable morning to change their plans.

Cove-North Powder Game

The Cove-North Powder game got under way about 2:30, and Cove practically won their game in the first inning when they batted in three runs. White, North Powder's pitcher, played the biggest part of the game for his team, for besides hanging up a strike-out record of fourteen batters in seven innings, he performed creditably with the bat. North Powder scored once in the first inning and tied Cove in the second. In the fourth they took the lead by one, the fifth was barren of runs, but Cove came back with two more in the sixth and one in the seventh, holding the Powder team in the meantime to their score at the fourth.

The Line up of the teams was as follows:

Cove—G. Conley, 2b; Carter, 2b; Coons, ss; R. Alexander, cf; Smith, p; T. Conley, c; Hancock, lf; G. Kixander, rf; A. Jereb, 1b; Bloom, utility.

La Grande-Cove Game

While the Cove-North Powder game was a league game, being the play off of a tie between the two teams, the second game, between La Grande and the winners, the Cove team, was purely an exhibition game.

Manager Scranton worked a new pitcher and discovered talent he had not known existed in Clarence "Stiek" Woods. Woods' southpaw delivery was very effective and it was not until the sixth inning that the Cove bunch was able to get a runner around the diamond. They scored their only two runs of the game in the sixth.

La Grande, on the other hand, scored early. One in first and three in the second gave them their total tally for the game, for after the second Cove changed its battery and got better results. Bill Workman, just returned from the service, was in the game on third for the locals.

Errors were numerous enough in both games, but they were less evident in the second. The line up: Cove—Carter, 2b; Conley, 3b; Coons, ss; R. Alexander, cf; Gulp, lf and p; Bloom, 3; Grippen, rf; Bloom p; Jereb, 1b; Conley, c.

La Grande—Workman, 3b; Hickley, 2b; Pidecek, c; Clark, cf; Wood, 1b; Price, lf; Childers, rf; Clay Wood, p; Pennwell, ss.

BIG CONVENTION STARTS SUNDAY

COAST ADVERTISING MEN TO MEET IN PORTLAND

Large Representation from Union County Ad Club Asked for On June 8, 9, 10 and 11

An invitation is extended to all La Grande business men to attend the big Ad convention in Portland next week, June 8, 9, 10, 11 and 12. The Union County Ad Club is sending five official delegates to the convention, but all members will be cordially welcome as visitors at any of the meetings of the convention. The invitation comes from W. S. Kirkpatrick, chairman of the attendance committee of the Portland Ad Club.

The convention, which is the sixteenth annual convention of the Pacific Coast Advertising Men's Association, will hold a great deal of interest and value for all business men. Addresses are to be given by leading advertising experts of the nation. There will likely be a large number of Union County business men in Portland to attend the Rose Festival, which, it is pronounced, is to be the best ever, and it is urged that they make it a point to attend some or all of the meetings of the convention.

Those who are going should, of course, make their reservations of rooms at hotels at once. The attendance of local business men at this convention will not only do much for the men themselves, but it will react to the great advantage of the Union County Ad Club, through development of a greater number of interested working members.

NC-4 ENDS FLIGHT AT PLYMOUTH

conditions the NC-4 covered the last leg without a hitch to mar the exploit. Safe and sound but thoroughly fatigued by the physical ordeal of the trip, as well as the mental strain, Commander Albert C. Read and his crew are sleeping peacefully tonight.

The rousing welcome of Plymouth residents to the American airmen and the cordial reception given them aboard the Rochester by Rear Admiral Plunkett, the mayor of Plymouth, American and British officials, and the crews of the other NC planes, reached a climax with the first actual landing of the victorious crew at the spot from which the Pilgrim fathers set forth for America.

Peak of Adventure at Lisbon

There was wonderful interest in today's flight, although it was eclipsed by the previous flight of this seaplane, for in the opinion of American naval officers and the British public generally the NC-4 reached the peak of her great adventure when she spanned the Atlantic at Lisbon.

DIRECT FLIGHT HOME TALKED

PLYMOUTH, Eng., May 31.—The NC-4 has completed her flight from the United States, arriving from Lerrol, Spain, on the last jump this afternoon. Large crowds were out to greet the Americans. The seaplane made approximately a 500-mile jump, in six hours and fifty-five minutes, or at the rate of nearly seventy-five miles per hour.

It is learned unofficially that there is a prospect the NC-4 may fly home over a direct route from Ireland to New Foundland. It is understood a conference will be held shortly to discuss the proposition.

Plane in Fine Condition

American naval officers say that the NC-4 is in better condition than when she began the flight, and that the experience gained by the navigators and pilots would be an incalculable benefit.

Happiness Easily Attained. Orenburg Evacuated.

Those of us who ever stop to reason or think about profitable lines know that there are "sermons in stones, books in running brooks, and good in everything" as the poet sings. We do not have to be either rich or famous to procure happiness. If we try to keep cheerful, forget our woes and "look pleasant," our narrow sphere will take on a broad and pleasing aspect. Furthermore, this view will make us see lots of good in the folks around us and many fine attractions in our home and old "home town."
