### What is a "virtuous wife?" 29-31

It is known that from the earliest Roman times the game of tag and tagger were played with dice, but their invention has been attributed to the Greek poet and philosopher, Plato, who in 424, B. C., joined the Greeks in their expedition against Troy, where, by some writers, Plutarch is said to have been slain by an arrow from the bow of Paris. In addition to the invention of dice, Plutarch is said to have invented light boxes, measuring scales, the discus, the alphabet and the art of regulating the weather.

Every summer school. She has accepted a position as teacher of the sixth grade in the Riverside school in La Grande for the coming year. She as well as all the teachers who are now returning will be missed from the community and a large circle of friends with whom they were in other places.

The services. Memorial day was well attended. Although the condition of the weather made out door

speaking almost impossible. Rev. Letitia gave a short but very impressive address which impressed all with the thought of what a privilege we enjoy in being citizens of America and the beauty and sacredness of the Memorial day. At the close five of the returned soldier boys planted an evergreen tree in memorial of their fallen comrades.

Ernest Monahan, who sleeps some where in France. Little Gernot

Bowery in behalf of the Red Cross played a white wash and American flag on the tree and while all at once the band played "The Star Spangled Banner."

It does all good as neighbors and friends to understand each other better to have dinner together. Just try it Tuesday at the Odd Fellows' hall at the election dinner, when the ladies will serve you a fine home cooked dinner, cafeteria style where everyone gets what he likes.
