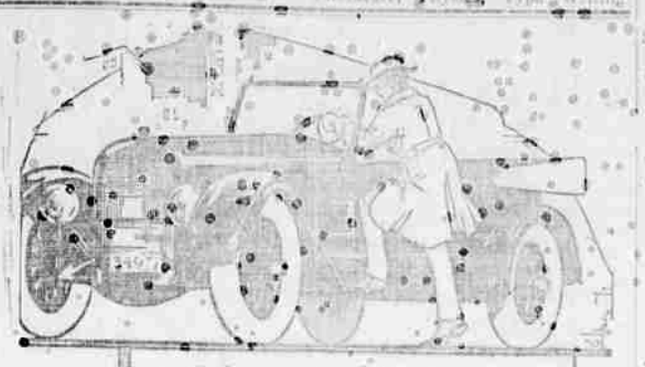
"I'LL SAY IT IS"

The best place to take your car if it does not work like it used to. The Standard Auto Repair Shop, corner Adams and Fir. Ed. Cyr, Prop.



A busy man's automobile—

may become shabby from sheer lack of time to have it done over. You need the car daily and you can hardly afford to be without it for the length of time ordinarily thought necessary for repainting.

If this is your problem, B-H Superior Automobile Enamel will solve it.

Paint your car right at home—let it dry while you sleep—drive it to town in the morning! B-H Superior Automobile Enamel dries thoroughly in from three to five hours.

Say your friends open their eyes at the glossy, durable finish—the new-looking appearance of a factory job.

MILLIONS GOING INTO ROADS

Western States to Spend Much Money in Highway Construction and Needed Maintenance.

Millions of dollars will be expended in highway construction and bridge work and maintenance by the states of the central West during the present year, according to data recently compiled by highway authorities.

Colorado has 51 miles of highways under construction at a cost of $800,000; 94 miles ready for contract to cost $360,000, and 30 miles and three bridges contemplated, to cost $250,000.

The Photograph Shows a Portion of the Pikes Peak Ocean-to-Ocean Highway.

Maintenance on 4,000 miles will amount to about $200,000, while local road and bridge expenditures will amount to about $2,200,000.

Idaho has 87 miles, costing $720,000, under contract; 43 bridges, costing $425,000, ready for contract, and about $1,800,000 worth of additional work is contemplated during the season.

Iowa will expend $15,000,000 on the road system of the state, of which about $11,000,000 will be for road and bridge construction.

Missouri has 666 miles under contract, costing $1,785,000; 888 miles, costing $3,104,000, ready for contract, and about $8,000,000 additional construction contemplated. Local road and bridge expenditures in the state will amount to about $7,000,000.

Nebraska has 173 miles, costing $431,000, under contract; 145 miles, costing $550,000, ready for contract, and about 610 miles, estimated at $1,310,000, contemplated. Local road and bridge expenditures will amount to about $3,000,000.

Nevada has four miles, costing $54,000, under contract; 102 miles costing $657,412, ready for contract; 128 miles, costing $523,000, contemplated. Local expenditures on maintenance will amount to $900,000.

Oklahoma has 328 miles, including 60 bridges, costing $1,350,000, under contract. Additional construction of 165 miles, costing $2,700,000, contemplated.

These amounts will be supplemented by increased federal aid appropriations and later, it is hoped, by national construction of main trunk lines under the supervision of a federal highway commission, as provided for in the Townsend bill which will come up for consideration by the next congress.

SAVING OF IMPROVED ROADS

Report of Congressional Committee Shows 8 Cents Per Ton Per Mile Can Be Saved.

The report of the joint congressional committee which investigated highway economics in 1914 shows that a saving of 8 cents per ton mile can be effected in transportation costs when a road is built over the site of the favorable class. This does not take into account increased real estate values, as well as social advantages, accruing from the improvement.

Build Roads Now.

It pays to use a good rubber tire but not build them immediately. Instead of waiting and suffering inconvenience for years to come, because it should be done now, why not save the money by doing it at once?

Big Crops Depend on Roads.

Prices are appearing to rise and there are few years when it would have been impossible to secure even a small appropriation for this purpose.

FOR BETTER ROADS

Have the label, which stands for fair working conditions, put on your job printing. The Observer is one of the two shops in town observing union principles. Phone Main 37.

refreshing and best of all drinks. If you feel hungry and don't have time to go to lunch drop in and try a malted milk made just right, or a fresh strawberry sundae at Silverthorn's fountain. dly 6-6-tf

Mad as a Hatter.

Mad, in Anglo-Saxon, is frequently used as a synonym for violent, furious, angry or venomous. Attor, in old English, means adder or viper. Hence the combination of the two words "mad" and the corrupted "Natter" merely means "as venomous as an adder." And the proverbial saying has, therefore, no reference to hatmaking at all.

MODART CORSETS
Front Laced

THEY LOOK OLDER THAN YOU ARE!

In attending how many women through in good shape are wearing corsets that give a more mature appearance to the figure than it should have, and consequently they appear to be five or ten years older than they are.

It is possible to readily improve such condition if you will come to our corset department and get a trial fitting of the MODART front laced corset.
