With Budapest In Hands of the Mob, Order and Decency Entirely Upset

(By Associated Press to The Observer)

VIENNA, May 16.—(By Mail.)—Conditions in Budapest and the surrounding country under the fantastic government of Bela Kun and his soviet are grotesque. It has just become known that the Countess Rada is scrubbing stairways in one of the city prisons. Count Julius Szechenyi, aged 90, formerly master of the King's horse, is one of those who has incurred the displeasure of the ruling forces. In spite of his age, he has been forcibly removed from his home and imprisoned. What disposition will be made of him is not likely to reach the public until it has been ordered and executed.

Every room in the handsome marble palace of Count Louis Karolyi, the former Austrian ambassador to London, is occupied by some one of the vaunted proletariat, with such results as might be expected. Stovepipes stuck from the lace-curtained windows, and the silk-covered walls are smoky, grimy and greasy. Protective covers have been torn from rich divans and handsome chairs to be used for dishrags. Costly bronzes, chipped and mutilated, are being used as playthings by the proletarian children.

It is the same in the handsome residence of Count Andrassy next door, where squalor and dirt are rapidly replacing the magnificence and polish of a happier day.

Day by day comes the news of increasing violence on the part of those who are in power. The latest instances have to do with Ludwig Navy, former president of the Hungarian Parliament. He was seized at his country home and while being taken to Budapest, was taken from the train and shot to death by the Red Guard who gave as an excuse that he was trying to escape.

Altogether the situation in Budapest is rapidly approaching the point where there will be the customary appeal to the "great big-hearted America" to feed and clothe the people. Security of life and property is growing less with every week and the once magnificent city is rapidly taking on an appearance to which its people have hitherto been strangers.

Neglect of agriculture is one of the outstanding features of the situation. It is estimated that 50 per cent of the tillable soil has not been plowed, partly due to the disorganization and demoralization occasioned by an order of the soviet which forced land owners to raise the wages of farm laborers from five crowns to thirty crowns per day, and also to give them butter and milk without any charge and to see that they were properly clothed.

WOULD PRINT PETITIONS

The Bend Bulletin has raised a scandal by publishing the names signed to a recall petition. Many signers didn't know they had signed what they were signing, and others who had signed through malice were very much embarrassed to see their names in print. It would be a good thing if names signed to all petitions were published, as in that way our citizens might learn what they had signed.—The Oregon Voter.

Public worship at 11 a. m. The pastor will speak on "The Divine Emancipator." In the evening at 8 o'clock he will speak on "Shall the Sword Devour Forever?" Both of these messages are suggested by the near approach of the 4th and the present international interest in the subject of peace.

The Christian Endeavor will meet at 7 o'clock. The delegates to the C. E. State Convention will give reports. All young people are most cordially invited. 6-27-2t

LABOR COUNCIL WILL HELP WIND UP THE ARMY CAMPAIGN

At the meeting of the Central Labor and Trades Council of La Grande, one of the things decided upon was that organized labor in La Grande should get into the game and help put the Salvation Army quota over the top. This action was taken out of consideration that many of those who are endeavoring to solicit funds for the Salvationists are also serving on various committees for La Grande's Big Victory Celebration on July Fourth, and it was decided that it was a plain duty of Labor Union men to come to the aid of these overworked citizens, for while the Salvation Army drive must go to a successful conclusion, this city's big celebration also must receive a great deal of attention.

A committee was named by President Murphy of the Labor Council, and in turn this committee asks as many young women and girls to report at Snapp's La Grande Pharmacy tomorrow forenoon at 10 o'clock to lend their help. If you can't come at 10, be there at 2 o'clock in the afternoon, as your help will be greatly appreciated, and you will have an afternoon of real enjoyment as well.
