

Children's Ailments

DISORDERS of the stomach and constipation are the most common diseases of children. To correct them you will find nothing better than Chamberlain's Tablets. One tablet at bed time will do the work and will make your child bright and cheerful the following morning. Do not punish your children by giving them castor oil. Chamberlain's Tablets are better and more pleasant to take.

WILL JUNK WARSHIPS

Twelve Vessels Have Outlived Usefulness as Fighters.

Historic Oregon Among Craft That Will Be Relieved From Active Duty.

Washington. — Twelve pre-dreadnaught battleships will be relieved of active duty with the fleet, placed out of commission and eventually broken up for junk or used for targets by more modern vessels, under plans now being worked out by the navy department. The ships are of the "old-fashioned" type and are not considered to be of any value against latest fighting craft.

Four of the battleships, the historic squadron comprising the Oregon, Indiana, Iowa and Massachusetts, have already been relegated to the scrap heap. The remaining eight, apparently doomed to the same fate, are the Kearsarge, Kentucky, Illinois, Alabama, Wisconsin, Maine, Missouri and Ohio.

The twelve vessels, built between 1883 and 1901, represent a total expenditure of more than \$30,000,000. When placed out of commission they will release for other duty approximately 10,000 enlisted men and nearly 400 officers.

The ships long ago outlived their usefulness as combatant units in a fighting fleet, although when they were built they were among the most formidable war vessels afloat. All of them were used during the war with Germany as training ships or coast defense units. Slow of speed, with small coal capacity, inferior armament and equipment and insufficient protection against present-day projectiles, the

ships, if kept in commission, would be more of a liability than an asset. In the opinion of naval experts. They are armed with old-type 12- and 13-inch guns in the main batteries and eight-inch in the secondary defense.

The question of what to do with so many practically useless battleships after they have been placed out of commission is before the department at this time.

Her Stocking Ticked Her Into Police Cell

Milwaukee. — Alice Hawkins has a penchant for the unusual in jewelry. Patrolman Huettli had occasion recently to question Miss Hawkins. As he escorted her to the patrol box he heard a faint tick-ticking. The noise apparently came from beneath a very tight skirt.

"What's that?" asked Huettli. "Got a wooden one?" and he tapped his own leg.

"Nothing like that," explained Miss Hawkins. Then explaining that she "was going to spend the night with friends and wanted to be sure to get up on time," she reached down and, after requesting the inquisitive officer to "turn his back," deftly removed a full man's size alarm clock from her left stocking.

Scientific.
Doctor—"As for your trouble with your husband, my dear, I may tell you it is a scientific fact that most causes had temper." Mrs. Bloggs—"Oh, yes, I've noticed that it always does when it is burned!"
