terial to \$1.00 an acre. If the plaster increased the yield at a half ton to the acre it would appear to be a seasonable investment as hay is worth \$15 in the stack. On the average the increase has been considered greater than this. If your alfalfa is not yielding the way it should, it might be well for you to talk to any of the above mentioned parties and secure their opinion of land plaster upon alfalfa fertilizer.

en up with the motor races, and in the evening there will be a choice of events. At the park in the evening there will be the opening number of the chautauqua course; at the baseball park the boxing match for the entertainment of the sporting fans; and at Rex hall a dance put on by the O. W. band.

The parade committee is well pleased with the promise of that department of the celebration, but they are anxious yet to build up the section for decorated automobiles. Word has been received that the Cove people are sending over a magnificent float to advertise their cherry fair, and this little bit of outside competition will probably spur local talent to greater efforts. Among the prizes to be offered for exhibits in the parade is a \$50 one for the best decorated automobile. The parade will lead to the city park, where Rev. William A. Sunday is to talk, and let it be known again, everyone is to have the pleasure of hearing Mr. Sunday without any cost whatever.

### The Men Will "Four."

A feature of the program will be the staff of waiters which Frank Lilly has secured to pour coffee and generally attend to the reception and refreshment business at the park at the conclusion of Mr. Sunday's address. The business and professional men of the town have been enlisted for this service, and they will be seen all together in white aprons and white caps, just the way they might have been—some of them—before they rose to positions of prosperity and greatness in the community.

Final plans for the afternoon program show that things will likely be even more interesting than at first anticipated. The events will consist of two automobile races, two motorcycle races—both for short distances—and two novelty races. The final race will be a free-for-all and both auto and motorcycle will be eligible to try the distance, which will be 15 miles. The race will be run on the half-mile track at the fair grounds.

### Reports From Big Fight.

An important feature of the afternoon, for the followers of sporting events, will be the reading of reports from the William Dempsey championship fight at Toledo, Ohio. The reports will start coming over the wire at noon local time, and will be read from the speaker's stand at intervals between the races. This convenience has been arranged by the athletic committee which is in charge of the afternoon's program.

of the famous 91st Division, went to all 22 battles—white ones.

Martin of the 18th Engineers has a splendid record, having entered 11 combats against the best lightweights in France and losing but one fight, that being to Yets the French light-weight champion.

And Zimmerman, recognized as the most sensational young fighter coming Portland, has never been defeated. He has beaten Lucky Maroon of Seattle, Earl Connors of Tacoma, and many other good boys in the northwest. He is exceptionally fast and aggressive, carrying a good punch in either hand and always makes a host of friends wherever he appears. His father, Key-

Engene F. Zimmerman, who has captained the pulpit in the Methodist church at Orono, city, Ashland, Hillsboro and Independence, always accompanies his son, and invariably acts as his sponsor at the ring-side. R. N. Mr. Zimmerman has another son, Earl, at Camp Stewart, Va., and a third son, Joe, in the Marine Corps at Guam. Both boys are exceptionally good amateur boxers. Rev. Zimmerman will accompany Neal to La Grande and will be in his corner when he meets Carl Martin next Friday night.

Frank Kendall, the heavy-weight who will fight Leo Gross here on the fourth, it will be known to followers of the sport throughout the north-west. He has a good record as a heavyweight boxer not only throughout the state but in the east, where he won 11 times in 1917, getting an even break or better with some of the best known men in the part of the country. Kendall and Gross met at Yakima the 19th of this month in six rounds, which was concluded by the papers of the fight to be the best ever seen there. So far as the east and only time the two men have ever met. Each being equally good, the two head men who were unable to settle the matter of supremacy in the rounds, each man claimed that he had the right gone to

ten rounds, he would have been the winner. As the contest will be over the ten round event in La Grande their differences should be cleared up to the satisfaction of both on the night of the fourth.

The Portland Boxing Commission has complimented the local Boxing Commission on their selection of contestants and the length of the program, making the statement that in their judgment La Grande is the best boxing judge in the west, and that they have an opportunity has been selected by the Commission to referee the contest here on any town recently organizing a club—the fourth.

Soats are now on sale at Hughes' Cigar Store, Palace Confectionery, Jay Van Buren's Cigar store and the Club Cigar store. Popular prices will prevail and a tremendous crowd is expected to be in attendance. Dr. Chas. Maher of Wallowa, former manager of John Coulter, the man who brought Billy Papke to the coast and one of that in their judgment La Grande is the best boxing judge in the west, and that they have an opportunity has been selected by the Commission to referee the contest here on any town recently organizing a club—the fourth.
