## Loss of Appetite

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food time to digest and the stomach a period of rest before a second meal is taken. Then if you eat a smaller than usual amount of food, you will not need to worry about your appetite. When the loss of appetite is caused by constipation it is often the case that should be corrected, at once. A dose of Chamberlain's Tablets will do it.—Adv.

I know from my own experience they are all that is claimed for them. When I have any pain across my kidneys, or my kidneys are on edge as they should, I take a box or two of Doan's Kidney Pills and they never fail to fit me up in good shape."

## One Thing You Can Do--

With a driving hailstorm headed your way what could you do to save your crop? And after the storm had passed and beaten down everything you had spent the entire season in raising, what could you do about it, and where could you look for the year's income that had disappeared under your very eyes?

Would you try to preserve your crop from damage? You could not.

Could you replace the crop or get it back into good condition. No.

Could you recover your lost season's income? **Certainly you could**—if you had taken out hail insurance with the **SECURITY INSURANCE AGENCY**. They write your insurance and give service.

## MODART CORSETS

Front Laced

**WHY LOOK OLDER THAN YOU ARE?**

It is astonishing how many women through lack of attention are wearing corsets that give a more mature appearance to the figure than it should have, and consequently they appear to be five or ten years older than they are.

It is possible to readily improve that condition if you will come to our corset department and get a trial fitting of the MODART front laced corset.

## Get Your Carnation In Now For Threshing

There's one trouble you need not have at all in the busiest time of your year on the grain farm.

You can settle the milk trouble for that time—as for all times—by stocking up with several cases of

## Carnation Milk

Carnation is sweet, fresh, pure milk evaporated to the consistency of cream, and canned. It keeps perfectly in a cool, dry place until used on your table.

Dilute Carnation with an equal volume of water, and you have milk of natural strength, excellent for drinking or for any use to which you put milk.

Also Preferred by City Cooks

Carnation should be used in tea and coffee or on fruits and cereals just as it comes from the can.

Carnation for cooking is a blessing to any housewife. It makes everything you cook taste better. "The Story of Carnation Milk," a book that we will be glad to send you free, gives over 100 tested recipes. Mail us your address for it.

Better make a memorandum and get several cases of Carnation the next time anybody goes to the store.
