LOCAL HAPPENINGS

August Stange Here With Relatives
"We came as body guard for August," remarked Augustus Stange, of Merrill, Wisconsin, who with Lesley Kinzel and August Stange, arrived this morning and will be in La Grande and vicinity for some time. August is a La Grande citizen, as it were, and his coming here it is rather up to him to put on some kind of a show. He says he is here to fish and be happy; to view the hills and wonder why it does not rain, and incidentally to give the young men who are with him an insight into Oregon affairs. Mr. Kinzel says he remains here for a period of time if plans in contemplation now work out.

Her many friends join in sending their deepest sympathy to her bereaved parents and relatives.

He is now stationed at Camp Mills but will shortly go to Camp Lewis for final discharge and is expected to reach home within a few days.

Happiness and Interest.
Personal happiness is almost synonymous with personal interest; the wider the range of the latter the higher is the degree of happiness.—Lillian Whiting.

Now Potatoes Grow Old.
If you place two-year-old potatoes in a box in a perfectly dry dark place and leave them for a few weeks you will find that new potatoes have grown on the old ones. They will continue to grow until the old potatoes have shriveled to dry skins.

Nature's Wonderful Work.
Nature gives to every time and season some beauties of its own; and from morning to night, as from the cradle to the grave, is but a succession of changes so gentle and easy that we can scarcely mark their progress.—Dickens.

Opinion.
Opinion is divided into four parts—what we want our friends to think of us, what we think they think of us, what they do think of us, and what we think they think we think they think of us.

All He Wanted.
There was a plate of cake on the table and Guy's grandmother asked him which piece he would have. "I'll take any piece so long as it's a good big one," was his unselfish reply.

First Land Sale.
We should say the first land sale on record was the purchase of the field of Machpelah by Abraham, who paid 400 shekels of silver for the field in which he buried his wife.

Three Capital Crimes.
"When I was a boy," states Mr. Patch in Stockton Herald, "there were three capital crimes—murder, blasphemy, and lying abed in the morning. Of the three, murder and blasphemy might sometimes be forgiven, but the rising fever. One of my grandfathers frequently got up at four o'clock on a winter morning, built a fire in the cook stove and the would sit down by it and go to sleep."—Kansas City Times.

Sensitiveness of Plants.
When rain is about to fall the clover shuts its leaves, bringing two of its three leaves face to face and folding the third over the top. The young blossoms are also carefully sheltered by enclosing leaves which move forward in the evening and wrap them round.

Eyeglasses.
The suggestion of the use of lenses for the cure of eye defects was made by Roger Bacon, the great scientist of the thirteenth century. The making of the spectacles was carried out by Italians. Physicians of those days, however, did not know the true theory upon which they were based.

Old Age Unhealthy.
We can't help thinking that the business of a centenarian is very unhealthy. We rarely hear of them unless they are dying.

MODART CORSETS Front Laced

WHY LOOK OLDER THAN YOU ARE?

It is astonishing how many women through lack of attention are wearing corsets that give a more mature appearance to the figure than it should have, and consequently they appear to be five or ten years older than they are.

It is possible to readily improve that condition if you will come to our corset department and get a trial fitting of the MODART front laced corset.
