Author of the "Doxology." The author of the "Doxology" was the English bishop, Thomas Ken (1637-1711), who in 1691 was deprived of his see (Bath and Wells) as a non-juror. His most widely known hymns, "Awake, My Soul" and "O, My Father, My God, My King," both of which end with the famous "Doxology," "Praise God From Whose All Blessings Flow."

Summer Complaint in Children causes no complaining. Like so many diseases from, this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care be taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says: "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaints in children. It is far ahead of anything I have ever used for this purpose."—Adv.

**Loss of Appetite**

As a general rule there is nothing serious about a loss of appetite, and if you skimp on food or eat too little, a meal a day for a few days will soon have you back to your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. If you eat no more than you crave and take a reasonable amount of exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.—Adv.

**Ever Have a Fit**

Have you ever longed for a suit which fits every line and curve of your body? Have you wished for the style and exclusiveness of clothes made for you—and you alone?

—Then come to me for your Spring Suit: Lamm & Company, Chicago, a house with an a-tional reputation for quality clothes, are making clothes season after season for many of La Grande's best dressers.

With the most careful, accurate measurements and a virtual blue-print of your form which I furnish them, they cut and tailor your suit with painstaking care—the result being a combination of style, perfect fit, quality and durability at a price within the reach of the most modest pocketbook.

**OIL GROUND FLOOR OIL**

**To Prospective Investors:**

Many are familiar with the large returns from successful oil operations. The fortunes that have been made are fabulous and no greater have been made than will be made in the near future.

There is a chance for a number of Oregon men to join in a ground-floor proposition. A lease has been secured in a positively proven field. Oil wells now producing border the lease. The oil in this field is high grade, selling at present at 75 cents more for each barrel than other oils.

It is in a field that requires a 2800-foot depth to reach the oil sand, and the wells are pronounced long-lived. Pipe lines are in and market is positive as soon as oil is struck.

To those who would like to invest, here are a few things to be remembered—things that are seldom obtainable in oil investments:

First.—The field is proven. The lease adjoins oil production at the present time.

Second.—This is not a company to sell stock, but a chance for a number of people to pool capital and put down a well, benefitting from what returns come from the venture.

Third.—The lease and drilling will be under supervision of a man who has had years of experience in the oil business and has drilled in some of the best wells in the field. He is a man thoroughly honest and is known to Eastern Oregon people, capable of giving references that would satisfy anyone. He is financially interested now and will give the work his individual attention.

Fourth.—All money invested will be placed in an Oregon bank and perfect accounting will be kept, rendering statements at all times.

Fifth.—No salaries are to be paid, except for the labor in drilling the well and no expense will confront the investment except the essential expense necessary to the drilling and the lease as it is developed.

If you have ever had an inclination to invest in oil you could get no better opportunity than this ground-floor proposition, for it will be handled by people who are reliable in every way. Usually the investor buys stock in a company not knowing its officers, its manager and unmindful of oil experience of anyone connected. In this case there are no officers at present, for this is an invitation to people who honestly want to drill for oil to come into an investment which will be officered later and organized in whatever way those now investing see fit.

The drill is at hand, ready to work, but it will not be moved on the lease until \$20,000 is secured, for there is no intention of having a half-drilled well.

If you feel interested and want to join square people in an effort to make money out of oil, now is your opportunity.

The oil field is one of the big producing sections of the mid-continent field. It is no experiment and no one is asked to assist in bringing in a new oil zone. With oil being produced in large quantities adjoining this lease, with pipe lines in, the only chance that is being taken is to drill in an oil well, which certainly looks more than promising when the surroundings are considered.

Please address, stating the amount you are willing to invest.
