

PRESIDENT HAS SLIGHT SICKNESS

WILL PROBABLY BE ABLE TO RECEIVE CALLERS BEFORE END OF THE WEEK.

INTERVIEW WITH SENATORS AT PRESENT CANCELLED

Request is made to the Senate for the appointment of an American member of the Reparations Committee to act provisionally—Ohio Senator supports League.

(By Associated Press to The Observer)

WASHINGTON, July 21.—When President Wilson returned from the week-end cruise to Hampton Roads he was immediately ordered to bed by his physician, Rear Admiral Grayson, who announced that the President is suffering with dysentery. His condition is not serious and he will probably be able to receive callers before the week end. Engagements with Republican senators have been cancelled. The President has been feeling very bad for several days.

WANTS COMMISSIONER NAMED.

WASHINGTON, July 21.—The President has asked the senate foreign relations committee to approve the appointment of a member of the reparations commission, provided for under the peace treaty to act provisionally until the senate acts on the department. The President said he considered it important to the business interests that the United States be represented on the commission. The committee debated the proposition but failed to act, the Republican members of the committee being opposed to the request. It is understood the President intends to appoint Bernard M. Baruch, of New York, as such representative. The committee will consider the matter again tomorrow.

IS LEAGUE SUPPORTER.

WASHINGTON, July 21.—Senator Pomerene, Democrat, of Ohio, urged the prompt and unreserved ratification of the peace treaty and league of nations. He said that he was not sure that it would be a preventative of wars, but would tend to prevent war and could be amended as experience required.

JAPANESE PURCHASE GREAT QUANTITIES OF SUGAR

HONOLULU, July 21.—An announcement that Japanese buyers were in the market for great quantities of Hawaiian sugar has brought about a decided upturn of the stocks of the leading companies of the Hawaiian sugar group.

CARS TO COME OFF OF ADAMS

ORDINANCE PROHIBITS PARKING IN BUSINESS SECTION.

Thirty-Minute Stop Is Permitted. After Which Cars Must Move On.

Adams avenue is to be rid of its automobile congestion, according to a parking ordinance that has been passed by the city commission, which has already been published in the Observer.

This conclusion was reached after accident after accident had occurred and the number of cars has become so great that the business section must be relieved in some manner.

The new ordinance provides that cars shall not be parked on Adams avenue between Fourth and Greenwood. But it does not prevent any car owner stopping his car on the proper side of the street while he shops, so long as he does not leave it stand longer than thirty minutes. It is thought this will be ample time for the average shopper to make purchases, and it is generally agreed that with this restriction Adams avenue will be a much safer place than it now is.

AD CLUB WILL DISCUSS WATER QUESTION TOMORROW EVENING

There will be a meeting of the Union County Ad Club at the city hall tomorrow evening to discuss the water question. The meeting is called by Chairman Ed Coolidge and is to take the place of the regular Tuesday noon-day gathering. At this meeting the water supply question will be gone over in all details and there will also be discussed the report on the visit to the Beaver Creek reservoir Sunday.

On this occasion, R. A. West, who sunk the artesian well for the O. W. R. & N. Co., will submit his conclusions as to the practicability of an artesian water supply.

WAYNE GRAHAM GETS A REWARD

RECEIVES \$100 FROM JEWELLERS SAFETY ALLIANCE.

Check is Promptly Forthcoming For the Arrest and Conviction of Clement Pearson.

J. H. Pearce & Son, jewelers, are exhibiting in their window a check for \$100, which the Jewelers' Security Alliance is paying to Deputy Sheriff Wayne Graham for the arrest and conviction of Clement Pearson. On the morning of April 19, as one of the firm was about to dress the window and had the goods for that purpose in a box behind a partition near it, Pearson and another man came in, the latter wanting a hole drilled in a lens. The jeweler took the work into a back room, which has a window communication with the store, and through it he noticed Pearson pick up something from the box and apparently put it back after looking at it. After the men went out, it was found that Pearson must have taken a \$100 diamond ring and it was the empty case he was putting back. Mr. Pearce and the chief of police found the men at the station, preparing to return to their home at Hot Lake, and the chief made a hasty search as the train was about to leave, which did not bring the ring to light. Feeling convinced he was guilty, Mr. Pearce and Sheriff Graham and his own son went to Hot Lake and after considerable pressure Pearson admitted the theft and showed where he had hidden the ring behind a steam pipe. It developed he had picked up other things around town. Pearson pleaded guilty to larceny and was sentenced to from 30 days to three and one-half years in the state penitentiary.

The Jewelers' Security Alliance has a membership of nearly 6000 jewelers each one of whom displays a sign in his show window, offering this reward of \$100 for the arrest and conviction of anyone committing burglary, robbery, sneak theft, or window smashing on the premises, and in every instance the Alliance has made good and has paid out more than \$20,000 in such rewards for the conviction of thieves who have committed the crimes mentioned above; and many of them are now serving long terms in various penitentiaries throughout the country, because of this reward offer. There are three members of the Alliance in this city, all of whom display the reward sign in their windows.

ANNUAL PICNIC IN SEPTEMBER

KANSAS, MISSOURIANS AND OKLAHOMANS TO CELEBRATE.

Recent Arrivals From Those States Are Invited to Attend the Picnic and Get Acquainted.

Sunday, September 2, has been selected as the date for the annual picnic of the Kansas, Oklahoma-Missouri association. The date was decided on at a recent meeting of the officers and directors of the association. The us

PORTLAND STRIKERS BACK ON JOB

AT OTHER POINTS ON THE COAST, PHONE OPERATORS ARE STILL OUT.

STRIKING LINEMEN ALSO RETURN TO THE WORK

In San Francisco Voted Yesterday to Stay Out, and to Continue With the Strike, but a Few Came Back—Matter to Be Settled at Meeting Called For Tomorrow.

(By Associated Press to The Observer)

PORTLAND, July 21.—All the eight hundred striking telephone operators returned to work in accordance with a vote taken yesterday. They registered at 8 o'clock today and were put to work immediately or will be paid from that time, the union leaders announced. Some girls wearing ribbon badges showing union membership were refused the privilege of registering. Some removed the badges and others held out, but finally all were allowed to go to work. The striking linemen also returned to work. The strikers claim a victory including a year's agreement, wage increase and an adjustment board.

STILL OUT AT 'FRISCO.

SAN FRANCISCO, July 21.—Few strikers have returned to work. They

AUSTRIA HAS TRIUMVIRATE

BELA KUN, SOVIET, REPORTED AS DEPOSED.

Red Army Said to Be Breaking Up. Money Values Depreciating and Food Conditions Bad.

(By Associated Press to The Observer)

VIENNA, July 21.—Bela Kun, minister of war and foreign affairs, has been deposed by a triumvirate composed of Tibor Samuely, Moses Alpari and Varga, former minister of social protection. They are all radical leaders.

The governing triumvirate is convinced that the Allies are too weak or are unwilling to intervene forcibly. Bela Kun's "Red army" is said to be breaking up, and the food conditions are unendurable.

FIRE FIGHTERS ARE MAKING HEADWAY

SPOKANE, Wash., July 21.—With calm weather and augmented forces of fire fighters the forest fire situation in northern Idaho appeared much improved Sunday, according to advices received here. But one fire, on Bear creek in the Coeur d'Alene forest, gained headway, according to Meyer Wolff, supervisor of the forest.

WEATHER FORECAST

(By Associated Press to The Observer) PORTLAND, July 21.—For Oregon: Fair, continued warm; gentle north easterly winds.

FIVE PERSONS KILLED IN AUTO ACCIDENT AT NAMPA, IDA.

BOISE, July 21.—Five persons were killed, and a sixth so seriously injured that recovery is doubtful, when, about 6:10 Sunday evening, an interurban electric car of the Boise Valley Traction company crashed into a automobile at Waldman Crossing about four miles this side of Nampa, and just east of Eagle Heights.

The accident is said to have wiped out the J. F. Ulery family, who have resided on a ranch about four miles from Nampa. The dead are: J. F. Ulery, Nampa. Mrs. J. F. Ulery, Nampa. Lina Ulery, aged 16, Nampa. May Ulery, aged 12, Nampa. Mrs. Charles D. Shellabarger, Nampa. Charles D. Shellabarger, the husband of the woman who was killed, was seriously injured. He was taken to the hospital at Nampa, and was operated upon Sunday evening. His condition, it is said, is not encouraging.

Mr. and Mrs. Ulery and their two daughters, all of whom were killed, were bound from Meridian to Nampa, taking their friends, Mr. and Mrs. Shellabarger to their Nampa home at 314 First street, north. They were riding in a seven passenger car, and for a distance before they reached the crossing, were going parallel with the interurban track.

Witnesses think that Mr. Ulery, who was driving the automobile, first decided to stop and let the electric car go by, and that he then changed his mind, speeded up, and tried to make the crossing first.

BUDDING BEING EXTENDED TO ALLEY WITH FULL BASEMENT

After Remodeling is Completed Line of Goods to Be Increased by Andrews Bros.

NO LIQUOR IN HOMES.

(By Associated Press) WASHINGTON, July 21.—House by a vote of 107 to 3, defeated the motion to strike from the prohibition enforcement bill the provision penalizing the storage of liquor in the home for personal use.

Fulfilling long contemplated plans Mrs. E. M. Anson, owner of the building occupied by the Andrews Bros. Toggery, started a force of men at work today to remodel the building to the alley, making it full length with a full basement under the whole of the structure.

Besides there will be general bushing of the interior and the store which has been divided in the past will be thrown into one large room. At present the Toggery tailoring department is occupying rooms over Putman's drug store.

"We will put in a larger line of merchandise as soon as the building is completed," said Al Andrews of the Toggery today. "It is our intention to add a ready-made line of clothing with overcoats, also to carry some ladies wearing apparel. The store will be much improved and we will add to the stock just to the capacity that we have room to care for the business."

SUPPLY OF WATER GOOD AT INTAKE

COMMISSIONERS BELIEVE TEMPORARY REMEDY FOR THE SHORTAGE IS POSSIBLE.

ENGINEER KELSEY STATES PIPE LINE IS TOO SMALL

Citizens Fail to Join City Officials on Inspection Trip—Pipe Line Will Be Lowered at Pierce Hill and Intake Extended Five Hundred Feet Up Beaver Creek.

The city officials, returning last night from their trip of inspection to the intake on Beaver Creek, expressed themselves as being of the opinion that they are going to be able to give La Grande a satisfactory supply of water for this summer, at least, by making a couple of changes in the system recommended by Louis C. Kelsey, the special engineer who was retained by the city some time ago for the purpose of making a close examination of the whole water system. The party going to the intake was composed of Dr. H. S. Brownson, president of the board of city commissioners; Commissioners McKennon and Grandy, City Manager John Collier, City Water Superintendent C. J. Black, Mr. Kelsey, Paul F. Bouvard, of the Jewel Filter Company, Engineer Harer, of the O. W. R. & N., and J. A. Matott, of Perry, who was closely connected with the local water office for many years. Citizens and business men of the town, though much concerned over the water situation, did not show up to make the trip.

At the intake on Beaver Creek the party found that there is an ample supply of good mountain water as there can be found anywhere. There is much more water than can be carried down by the pipe line to the city. Engineer Kelsey was convinced that with a couple of alterations in the system the city would be able to secure enough water to supply the needs for this summer, at least. The pipe line is not large enough to carry the amount of water necessary for a city the size of La Grande, he says, but their plans will do until a permanent remedy for the shortage is provided. Mr. Kelsey's plan is to extend the intake about five hundred feet farther up Beaver Creek and to lower the level of the pipe line at the Pierce Hill, about three miles from the city. This, he believes, will increase the capacity of the pipe line very materially. The city will also install a water meter at the city reservoir, in order to ascertain whether or not the pipe line is delivering all the water entering at the intake and if the pipe line is carrying its full capacity.

LOCALS TAKE SUNDAY GAME FROM NORTH POWDER.

La Grande Finished In Second Place—Postponed Game With Cove Yet to Be Played Off.

In a game full of errors, one-sided and not the least interesting to either spectators or players, La Grande took their last scheduled game of the Eastern Oregon league from North Powder yesterday afternoon on the local grounds, finishing the season on the second highest rung of the league ladder and relegating North Powder to the bottom.

While the locals were thus disposing of the North Powder outfit, the Cove team, which has had the best of the games all season and which was considered right along as practically sure of the pennant, was cinching things up right by defeating Baker by a score of six to nothing. The game was played at Cove.

La Grande demonstrated to the few fans present yesterday that they can play ball. They played a great all around game, gathering in 13 safe hits from the opposing pitchers and backing up their own mound artist in an encouraging manner, assisting Keene to come out of the game with but two hits scored against him. Besides pitching splendidly, Keene maintained his effective hitting, tacking up three hits, two of them three-baggers and the other a single, at five times at bat.

La Grande has a postponed game to play with Cove yet, the date of which will be made known later. Next Sunday or the Sunday following is contemplated. There are several open dates remaining for games and it is Manager Scranton's intention to get games with teams from neighboring towns to fill them out. In all probability there will be several such games that will prove interesting.

The lineup in yesterday's game follows: North Powder—E. Hess, ss; Tyler, 2b; Price, 3b; F. Pierson, p; Bardette, 1b; Titus, cf; Mercer, c; Bellinger, rf; F. Hess, cf. La Grande—Crippen, 3b; Workman, c; Clark, cf; Keene, p; Johns, ss; Munis, rf; Childers, lf; Hickey, 2b; Garrity, 1b. Struck out, by Keene 7; by Pierson 5; three-base hits, Keene 2; errors, La Grande 3; North Powder 9.

WORK STARTED ON HILL ROAD

THREE CAMPS ON WEST SIDE OF MOUNTAINS

Construction Will Be Pushed With Much Speed as Possible Until Winter.

Dirt was turned for the first time yesterday by the county on the improvement of the highway between Cabbage Hill and Kamela. County Road Engineer R. E. Phelps reported today, says the Evening Observer. The work was commenced at 10 o'clock of Cabbage Hill and the

TO CELEBRATE HOME COMING

L. D. S. CHURCH WILL WELCOME THEIR SOLDIERS.

Also the Returned Church Missionaries and Pioneer Day Will Be Prominent Features.

On Thursday next, the 24th inst., the L. D. S. Church will celebrate the homecoming of their boys who have been in the war service, with a reception to be held at Riverside Park.

A program has been arranged for the occasion that will recognize the features, the war service boys, the recently returned church missionaries and Pioneer day, as it is known by the church people.

As the celebration is intended to include all the church membership in this city and surrounding country a big response is expected. The activities will be about 9:30 o'clock with a program in the pavilion, with games and sports during the afternoon and a dance in the early evening in the pavilion.
