GRAIN and STOCK FARM WANTED

One large combination farm, or two separate farms will be considered. Two prosperous Montana ranchers, who have two of the best producing ranches near Lewistown, Montana, are traveling with me and are ready to trade their well paying plants for going properties in Eastern Oregon. One of the ranches is similar to the best farms near Summerville, sub-irrigated; the other resembles "Sandridge" farms, "dry farming system." I have other clients who have city and farm properties in the Willamette Valley and Walla Walla Valley to trade for properties here. Exchanges made on strictly conservative cash basis. State price and describe accurately and fully, addressing

OIL GROUND FLOOR OIL OPPORTUNITY OIL

To Prospective Investors:

Many are familiar with the large returns from successful oil operations. The fortunes that have been made are fabulous and no greater have been made than will be made in the near future.

There is a chance for a number of Oregon men to join in a ground-floor proposition. A lease has been secured in a positively proven field. Oil wells now producing border the lease. The oil in this field is high grade, selling at present at 75 cents more for each barrel than other oils.

It is in a field that requires a 2800-foot depth to reach the oil sand, and the wells are pronounced long-lived. Pipe lines are in and market is positive as soon as oil is struck.

To those who would like to invest, here are a few things to be remembered—things that are seldom obtainable in oil investments:

First.—The field is proven. The lease adjoins oil production at the present time.

Second.—This is not a company to sell stock, but a chance for a number of people to pool capital and put down a well, benefitting from what returns come from the venture.
