MODART CORSET
Front LacedWHY LOOK OLDER
THAN YOU ARE?

It is astonishing how many
women through lack of atten-
tion are wearing corsets that
give a more mature appear-
ance to the figure than it
should have, and consequen-
tly they appear to be five or
ten years older than they are.

It is possible to really im-
prove that condition if you
will come to our corset de-
partment and get a well fit-
ting of the MODART front
laced corset.

OIL

GROUND FLOOR
OIL OPPORTUNITY

OIL

To Prospective Investors:

Many are familiar with the large returns from successful oil operations. The
fortunes that have been made are fabulous and no greater have been made
than will be made in the near future.

There is a chance for a number of Oregon men to join in a ground-floor
proposition. A lease has been secured in a positively proven field. Oil wells
now producing border the lease. The oil in this field is high grade, selling at
present at 75 cents more for each barrel than other oils.

It is in a field that requires a 2800-foot depth to reach the oil sand, and the
wells are pronounced long-lived. Pipe lines are in and market is positive as
soon as oil is struck.

To those who would like to invest, here are a few things to be remembered
—things that are seldom obtainable in oil investments:

First.—The field is proven. The lease adjoins oil production at the present
time.

Second.—This is not a company to sell stock, but a chance for a number of
people to pool capital and put down a well, benefitting from what returns come
from the venture.

Third.—The lease and drilling will be under supervision of a man who has
had years of experience in the oil business and has drilled in some of the best
wells in the field. He is a man thoroughly honest and is known to Eastern
Oregon people, capable of giving references that would satisfy anyone. He is
financially interested now and will give the work his individual attention.

Fourth.—All money invested will be placed in an Oregon bank and perfect
accounting will be kept, rendering statements at all times.

Fifth.—No salaries are to be paid except for the labor in drilling the well
and no expense will confront the investment except the essential expense nec-
essary to the drilling and the lease as it is developed.

If you have ever had an inclination to invest in oil you could get no better
opportunity than this ground-floor proposition, for it will be handled by people
who are reliable in every way. Usually the investor buys stock in a company
not knowing its officers, its manager and unimpaired of oil experience of anyone
connected. In this case there are no officers at present, for this is an invita-
tion to people who honestly want to drill for oil to come into an investment
which will be officered later and organized in whatever way those now invest-
ing see fit.

The drill is at hand, ready to work, but it will not be moved on the lease until
\$20,000 is secured, for there is no intention of having a half-drilled well.

If you feel interested and want to join square people in an effort to make
money out of oil, now is your opportunity.

The oil field is one of the big producing sections of the mid-continent field.
It is no experiment and no one is asked to assist in bringing in a new oil zone.
With oil being produced in large quantities adjoining this lease, with pipe lines
in, the only chance that is being taken is to drill in an oil well, which certainly
looks more than promising when the surroundings are considered.

Please address, stating the amount you are willing to invest.
