Really Important Point.

Roland had found a pencil eraser,
and, offering it to his little cousin, he
said: "You can have it, Hazel. Do
you know how to write?" Then, evi-
dently he happened to think that she
would have no use for an eraser un-
less she made mistakes, for he added:
"Do you know how to write wrong?"

BEEF CATTLE IMPROVEMENT

Take Care to Develop to Greatest Ex-
tent Those Portions From Which
Cuts Are Taken.

(Prepared by the United States Depart-
ment of Agriculture.)
The improvement of beef cattle
care has been taken to develop to the
greatest extent those portions of the
body from which are secured the high-
priced cuts of beef. These points
should be kept in mind when select-
ing breeding animals.

SYSTEM OF SHEEP FARMING

Farmers Cannot Be Successful and Ig-
nore Wool and Mutton—Both
Worthy of Consideration.

(Prepared by the United States Depart-
ment of Agriculture.)
A system of sheep farming that is
to be continuously successful cannot
ignore either wool or mutton. In many
cases the two products will be worthy
of equal consideration. In others
either one may be emphasized accord-
ing to the peculiarities of conditions,
management and marketing.

Cautimistic Thought.

There is naught in this wide world
like sympathy.

Daily Thought.

heaven go.—Hamlet.

Powerful Nitroglycerin.

The greater part of the world's out-
put of glycerin is used for nitroglyc-
erin, prepared by the action of a mix-
ture of nitric and sulphuric acids on
glycerin, which forms the chief in-
gredient of many modern high explo-
sives and smokeless powders, used for
military, mining and agricultural pur-
poses.
