

There are Just Two
Reasons Why

The
Brunswick
ALL PHONOGRAPHS IN ONE

Phonograph is Superior to
All Others

First—THE DOUBLE ULTONA, an exclusive, patented device, by means of which all makes of Records can be played without the use of any special attachments; a simple turn of the hand is all that is necessary.

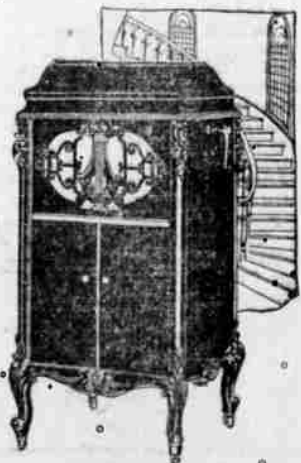

Second—The scientifically constructed WOOD SOUNDING-HORN, which makes reproduction pure and natural and does away with all the harsh, metallic twang usual in other talking machines.

No Record can be heard at its best until played on the BRUNSWICK.

Come in and hear this wonderful machine demonstrated, and be convinced that it is the PHONOGRAPH SUPREME, and remember, you can buy a Brunswick from us on any convenient and dignified terms of payment, and enjoy it while paying for it.
