

WOMEN DEMAND WARS ENDING

DR. ANNE SHAW MADE STRIKING
PLEA FOR PERMANENT PEACE

Claims Peace League Means
To Women That It Does to Men

(By the Late Dr. Anna Howard Shaw.)

Seven million one hundred thousand men who had laid down their lives in the great war. Think of it! Seven million, one hundred thousand young men had died on the field of battle!

What does that mean to the women of the world? It means that seven million one hundred thousand women walked day by day with their faces toward an open grave that they might give life to a son. It means that seven million one hundred thousand little children lay in the arms of a mother whose love had made them face even the terrors of death that they might become the mothers of men.

It means that year after year these women had put up their lives into the lives of their sons until they had reared them to be men. For what? In the hope that these sons of theirs could give to the world the things for which women dream, the things for which women hope and pray and long. These were the things that the women had in their hearts when they gave birth to their sons.

But who can estimate the value of seven million one hundred thousand dead sons of the women of the world? Who can estimate the price which the women have paid for this war; what it has cost them, not only in the death of their sons, because that is a phase of our war to which we look.

The Courage of Women.

We hear our orators tell us of the courage of our men. How they went across the sea. Very few of them remember to tell us of the courage of our women, who also went across the sea; of the women who died nursing the sick and wounded; the women who died in the hospitals, where the terrible bombs came and drove them almost to madness. They tell us nothing of the forty thousand English women who went to work back of the trenches in France.

They tell us nothing of the thousands upon thousands upon thousands of women who, not only toiled and worked and slaved in order that the war might be successful, but we do not hear of the thousands of women, not alone in Armenia, not alone in Montenegro, not alone in Serbia, but in Flanders, in Belgium, in Hunania, in Russia—the thousands of women who lie in graves today, murdered, so horribly murdered that men dare not speak of it.

And yet we women are asked what we know about the League of Nations; asked what we can understand about a League of Nations. Oh, men! the horrible deaths; the horrible lives of thousands upon thousands of women today in all these nations, who must live, and who must look in the faces of children unwelcomed, undressed—of little children—and know that these are the result of war.

And then ask women why they should be interested in a league of peace?

Women Suffer Most From War.

If there is any body of citizens in the world who ought to be interested in a league to ultimately bring to the world peace it is the mothers of men, and the women who suffered as only women can suffer in the war and in devastated countries.

And we call upon them, we women of the world, call upon the men who have been fighting all these battles of the years, the men who have led armies, and led armies close to their deaths.

We are now calling upon the men of the world to in some way or another find a passage out of the sea of death. We are asking them to form a league which will bring hope to the women of the future. If women are to bear sons only that they may die, if women may not have hope and aspirations for their children, if women may not dream the dreams that have in them the hope of the highest civilizations, the highest moral and spiritual life of the people—if women may not have these in their hearts as the mothers of men, then women will cease to desire to be the mothers of men. And why should they not? Why should they not?

What Pewter Is.

Pewter is an alloy of tin and usually antimony, copper and bismuth for the best qualities of pewter, and lead for the inferior kinds. The tin always preponderates, and the proportion is largest in the best pewter. One hundred parts of tin to eight of antimony, four of copper and one of bismuth are given as the proportions of good ware.

Baled Hay

\$29.00 in ton lots, for horses, milch cows and stock cattle.

CHICHESTER'S PILLS

Small, round, white pills, each containing one grain of active ingredient. Sold by druggists everywhere.

PLANE FOR BUDDING AVIATOR

Will Call the Penguin, Since It Moves Fast on Ground, But Is Unable to Fly.

Do you know what a penguin is? You may have read of it, but probably never have seen one. The penguin is an aquatic bird found in the polar regions. It is remarkable for its peculiar structure. It has only one pair of wings and, for that reason, is unable to fly. But it is a good swimmer and an expert swimmer and diver. The name of "penguin" has also been given to the training apparatus employed to teach prospective aviators the control of the airplane or seaplane. The name is well chosen. The penguin used for training is an airplane with wings so very small that the power of the motor is unable to lift the airplane off the ground or water. It is supplied with all the accessories, rudder and wheels exceptionally strong for running on the ground. The apprentice is encouraged to run this "penguin" to his heart's content; there is no danger that it will take to the air. In a short time he graduates to a real airplane that can and does fly, and then he can give all his attention to the flying part without having to worry over the handling of the various controls. The sense of safety he enjoys while learning is a great nerve sedative to the inexperienced aviator.

REMEDIES CALL FOR FAITH

Truly Weird and Wonderful Are Some "Cures" for Various Ills of the Human Body.

Weird and wonderful are the remedies advised in different parts of the world for diseases which affect humanity.

Sufferers from rheumatism may be pleased to hear that there are people who claim to have found a sure cure for their malady by binding split mackerel around the affected part.

The town of Lee, in England, still has on record the famous cure known as the "Lee Penny." This coin was brought from the Holy Land by a Crusader. On many occasions when the health of the people has been threatened this penny has been used. "Three dips and one swirl" in a bucket of water were supposed to endow the liquid with healing properties.

In many parts of Europe it is thought that passing under an arm a child suffering from whooping cough will bring instant relief.

Almost every one has heard of the curing of warts by touching them with a wedding ring. This "cure" is perhaps not so well known: Make the sign of the cross on a wart, at the same time chanting: "What I see, that I wish; what I wish, that disappears."

Uncrowned English Queens.

There have been several uncrowned queens of England. The first was Margaret of France, the second wife of Edward I. Money was scarce in

government coffers at the time, and Edward could not afford the expense of a coronation. The four last wives of Henry VIII, Anne Boleyn's successors—Jane Seymour, Anne of Cleves, Catherine Howard and Catherine Parr—were never publicly crowned as queen consorts. Henrietta Marie, the wife of Charles I, being a strict Catholic, refused to take part in a state function which would compel her to partake of the sacrament according to the rites of the Church of England. Sophia Dorothea, the wife of George I, and mother of George II, was never recognized as queen of England and therefore can not be classed as one of Britain's uncrowned queens. Caroline of Brunswick, the wife of George IV, was not permitted to be present in Westminster hall at his coronation.

Male and Female Swimmers.

Swimming comes easier to women than men because the specific gravity of their bodies is less than those of men. The proportion of flesh is greater in the body of a woman than in that of a man and the proportion of bone is less. Therefore the woman is lighter in proportion to her size and floats more readily. This gives her an advantage as a swimmer.

Poor Papa!
"Father, you took a science degree at college, didn't you?" "Yes, my boy; I spent two years on science." "When you look in a mirror the left side of your face appears to be the right side and the right side seems to be the left. The looking-glass reverses it, doesn't it?" "Yes, my lad." "Then, why, papa, doesn't it reverse the top and bottom of your face in the same way?"

Penon de Coron.

Now persons besides Chinese traders visit the forbidding shores of rock-bound Penon de Coron. The rugged beauty of its towering cliffs, with their dark and jagged outlines against the southern sky, is lost upon the natives who see them only as a source of revenue. By swinging from ropes or climbing ladders they scour these rocks for the tiny nests from which are conveyed the famous bird nest soup. These nests they sell to oriental traders by thousands, who come regularly to barter for this delicacy of Chinese fare.

"Campholatum" is just the thing for tan, sunburns, sore or cracked lips, sore throat, cold on the chest, boils and such complaints. It is sold only at Silverthorn's and warranted by them.

City Property and Farms

There have been no less than one dozen homes purchased in La Grande the past week. There is no necessity of a "Own Your Own Home" campaign in La Grande, natural conditions are bringing this about.

People are buying homes who have rented for years, and time after time have made the remark that "They could rent cheaper than they could own their own home." They now realize that rentals are climbing higher and higher every day and will continue to do so.

The reason is plain to be seen. It is not business at the present high cost of everything to buy lots and build for the income to be received from rentals, until rentals advance.

Look over the following properties—each and everyone is priced many hundreds of dollars below what it would cost to duplicate these properties today, and in most instances the terms make it possible for many to buy, who could not build.

Six-room furnished house, close to shops, with three lots, modern home, place for car, chicken house and park. Former owner made considerable money from the sale of choice flowers which grow in profusion. The price has been reduced from \$2700 unfurnished, to \$2000 including furniture. Owners have left the city and have made a price for quick action. Very liberal terms—just a few hundred dollars down.

Modern five-room house, with fireplace, basement with cement floor and stationary washbasins, built-in buffet, hood, sink, and sewer all paid for. This is on M avenue and this street is to be paved this fall. If you have \$1000 in cash, let me show you this splendid property. Get an estimate as to cost of building such a property in this location and you will appreciate the price, which is \$3000.00.

Ten-room house, furnished for light house-keeping, on Adams avenue; the rentals will pay for this home after the first payment is made.

Six-room house on M avenue, with basement, cement walk and sidewalk, modern, for \$2200. I have only had this property three days. This is a new modern house and the terms should move it this week.

Here is a choice property: Well-built five-room house, plumbed, big lot 52x135, nice lawn and shade trees, on Adams avenue; only four blocks from postoffice.

This property, were it not leased, would not be on the market five days. A modern home in every respect, heating plant, modern basement, seven-room house, with beautiful lawn, on a paved street in a choice residence section of the city. The price is \$5000, which includes everything; paved sidewalk and sewer lines. Possession cannot be given until next spring. If you are in the market for a real home that is priced right, investigate. Owner a non-resident.

A modern 5-room house for only \$1650. You cannot build this house today for \$2000—we are giving you the lot, which is 55x110, the cement sidewalk and sewer connections and the woodshed. The terms are also very easy. The owner is a non-resident and it is just possible that he does not know how La Grande is stepping right along these days. This will bear investigation.

I have clients who want modern bungalows. If you desire to sell, and price them right, list them with me. I can get you satisfactory results.

Farms All Sizes

Many are through harvesting and from now on you will hear of frequent farm sales. The student of the times that is the man who knows the world is hungry and has to be fed, realizes that farm products are bound to bring remunerative prices for many seasons.

Along this fall there undoubtedly will be many outside buyers and possibly not a few of our people who want to buy are expecting to buy, will wake up and find the particular farm that they are waiting to possess will belong to another.

I have quite a number of farms that are priced right, money-makers, and some on very reasonable terms.

I have 200 acres of choice Sandridge land for \$125 an acre, improved. This land is in the vicinity of the last few large sales that brought from \$150 to \$170 per acre. You be the judge whether this land is not equal in producing qualities. Nicely located.

Splendid 160-acre farm, highly improved, for \$20,000. This is situated in a locality that never knew what a poor crop was. Dry weather never affects this section.

160 acres near La Grande, high grade new improvements. Ask the neighbors in the vicinity of this farm what it is worth. The price is \$15,000.

137 acres near La Grande, 120 acres in hay, 55 in alfalfa, near school, good roads and a great market. 100 tons of hay goes with the place.

40-acre tract near town, well watered, well improved. If you want something extra choice, and at a price which is no higher than most land in this vicinity is selling for, see me.

I have two 10-acre tracts near the city that are priced right, either is close enough in so men holding positions in the city can retain them. If interested, I would be pleased to show them to you.

Farms near Union. One 80-acre tract for \$9000. This is an alfalfa farm; ample water.

2000-acre stock ranch. Here is a splendid property that should not be on the market ten days. The improvements are good; 250 acres of farm land, the balance is well watered, and fenced growing land, and the price is only \$15 per acre.

Good dairy ranch near La Grande, lots of alfalfa, good house and barn, and the terms are unusually easy. A good bunch of cows, and the first payment means a paid-in full good farm within a short time.

Farms of all kinds and sizes. Come in and look over my list. I surely have what you want, at a price that you will want to pay.
