

WHO WILL BENEFIT?

How the Bond Issue for Good Roads Affects Union County People

How the Bond Issue will Benefit Labor:

If this bond issue carries, it means that five hundred thousand dollars a year for six years, will be spent on Road Construction in Union County.

About ninety per cent of practically four hundred and fifty thousand dollars of this amount is for labor, or a total additional pay roll from this source in six years' time of practically two million seven hundred thousand dollars, in addition to this a great many large farms will be cut up into 40 and 50 acre tracts, which means that homes, barns, and out buildings must be built and land must be fenced.

Also logged-off lands will be sold to settlers and these lands must be cleared, fenced and put in cultivation.

New telephone lines will be constructed, new County Roads must be built. All of which is development and development means payrolls.

Don't Fail to Vote!

How the Bond Issue will Benefit the Professional Man:

When a doctor is called out in the middle of the night in dead winter to see a sick patient, he can be sure that he will not be stuck in the mud several times while going and coming. The patient will feel surer of him getting there to see him, or her, as the case may be. The up-keep and deterioration on his car will be about half what it is today. He can cover the distance in better time. Quite often this means the saving of a life.

All other professional men are equally interested in good highways from an economic standpoint.

On October 11th, 1919, You can do Your bit to help develop Union County.

Vote! Vote! Vote!

There has been approximately \$1,000,000.00 spent of Union County Roads in the last 20 years. What have you to show for it? By voting bonds and building this road system we have roads that are permanent in the future.

Every citizen of Union County can vote, whether he is registered or not. It is not essential that one be a taxpayer, if he is a citizen, he can vote.
