Wheat Always Preferred Food.

While more people are living in the world today dependent upon rice than upon wheat for subsistence and a greater number of the human family live upon millet than any other cereal food, wheat is the preferred food among the higher civilized peoples. The more progressive peoples of the earth have ever been wheat eaters. Grains of wheat have been discovered in Egyptian tombs of the first dynasty, dating back 4000 B. C. while bread of wheat has been excavated from the ruins of the prehistoric lake.
