FARMS! FARMS!

One of the finest grain farms in Grande Ronde valley. Well improved, on line of paved road; price \$150 per acre. This property will come to a little better than \$10,000, and it will take at least \$15,000 to handle it. In the best part of the wheat belt; good for 40 bushels.

Fifty-five acres of fine farming land on the Sandridge, at \$15 per acre. There are no buildings. This would be a splendid investment for someone, as the income will amount to more than interest, and besides, the land will sell for more money within another year.

We have a fine farm for sale from Aluel, consisting of 440 acres. The improvements are good. Nearly all of this land is under cultivation. A small amount of it is along the river bottom, and the balance is grain. Land in this locality is selling for better than \$100 per acre, and there is no reason why this property shouldn't sell for that amount next year. The price just now much lower. Good reason for selling, and the best of terms.

We have a residence property just out of city limits, one acre, nine-room house, near new, modern, and only \$5000. Only a small amount of cash required.

NO ONE KNOWS HOW I SUFFERED

"Nobody will ever know" how I suffered before I got relief by taking Tanlac, because I just can't describe it," said Mrs. Irma T. Cox, who lives at 816 1-2 Thurman st., Portland, Ore., while talking to a Tanlac representative the other day. "I had suffered from indigestion and stomach trouble for about seven years," continued Mrs. Cox, "and my condition had finally gotten so bad that for five or six weeks before I commenced taking Tanlac I was not able to do any part of my housework. I didn't have any appetite at all, and just had to force myself to eat enough to keep me going, and just a few bites of anything to eat would cause gas to form and give me shortness of breath. Often during the night I would have to sit up in bed and gasp for breath. There were times when my feet and ankles would swell so bad that I couldn't get my shoes on. I also suffered from raging sick headaches that would almost drive me wild. Finally my nerves got in terrible condition, and it was out of the question for me to get a good night's sleep. I took many different kinds of medicine, but my condition seemed to get worse all the time.

"I finally decided to give Tanlac a trial, and it certainly proved a God-send to me. I began to improve soon after I commenced taking this medicine, and I have been getting better ever since. I can eat anything I want and as much as I want, and I never suffer the least bit after meals. I am never bothered with shortness of breath, and all that swelling in my feet and ankles is gone. I am completely rid of those terrible headaches, too, and that alone would make me say that Tanlac is the best medicine in the world. I am so well and strong now that I do all my housework without the least trouble. Everybody who knows me is talking about my wonderful improvement, and I always take pleasure in telling them that I owe it all to Tanlac."

Tanlac is sold in La Grande by Silvertowne drug store; in Union, by L. A. Wright; in North Powder, by L. Russell; in Elgin, by Scott E. Harris; and in Telocet, by Telocet.

ALUMINUM CAN BE SOLDERED
GENEVA, Switzerland, Sept. 14.—A discovery which is expected to save housewives great expense has just been made by a Berne engineer, Charles Bignell, who has just invented a process for soldering aluminum. Professor Schule, of the Federal Institute of Berne, in a test made a few days ago, soldered two bars of aluminum. They snapped under the weight of 800 pounds but the soldering successfully resisted pressure. Heretofore, aluminum had defied welding, the Professor said.

Boys Steal Sacks—
The police spent most of yesterday morning rounding up a couple of boys for stealing sacks. The two small youngsters emptied some 21 sacks of apples which were piled up by one industrious citizen of the town. The two small boys then took their sacks to the J. D. Lynch company, where they received \$1.05 for them. When the police got busy, the boys had spent the money for gum and other luxuries and so when the police told them they had to replace the sacks, they went home and asked their parents for the money. They then redeemed the sacks, which the police made them carry back to the place where they had dumped the apples, and they spent the morning putting the apples back into the sacks.

"BE A LITTLE SPORT"

"IS ONE LONG LAUGH"

A remarkably fine picture will be shown at the Sherry theatre today only. It is called "Be a Little Sport," and Albert Ray and Elinor Fair are the latest additions to the William Fox forces and, judging by the pictures these two have been seen in thus far—and especially "Be a Little Sport"—William Fox can pick screen talent with a sure hand. Ray and Miss Fair have been more than satisfactory as comedians. In

"Be a Little Sport," these two, aided by an excellent cast, kept the house in roars of laughter throughout the performance. The fun is not only rapid, but wholesome.
