

EDUCATIONAL WORK IN THE FAR EAST.

Report of Advocates of Rockefeller Foundation in India and the Philippines.

Correspondence of The Associated Press.
SHANGHAI, Sept. 25.—Following an investigation of the activities of the Rockefeller Foundation in China and the Philippines that was conducted through the summer months by Dr. George E. Vincent, president of the foundation, it is understood extensions of the educational work in the Far East, particularly in China, will be authorized at the annual meeting of the Rockefeller Foundation in New York in December.

Existing medical schools and hospitals at various places in China have been receiving contributions and aid from the foundation. The two most important enterprises of the organization in China are the Peking Union Medical College under construction at the Chinese capital, and the Shanghai Medical College.

SEEKING RELIEF FOR EASTERNERS

SAN JUAN, P.R., Oct. 12.—To insure people in the United States in the rebuilding of homes and properties destroyed a year ago by an earthquake, the Western Pacific Building Association has sent a commission to New York which will establish headquarters there from which to direct their work. It is proposed to advance money to owners of properties for a long period of years and without interest. As repayments are made the association will use the funds for building schools and hospitals and other needed public buildings.
