War Prisoners in Siberia Waiting for Operation of Relief.

WARSAW, Sept. 5.—Via Paris, Sept. 29.—Poles who have just completed a pilgrimage of many months from the heart of Siberia to the newly-redeemed city of Minsk, have brought to American Red Cross headquarters in that city the news that at least 200,000 former war prisoners are waiting in Siberia for an opportunity to return to Poland. Some placed the number at 500,000.

According to the "Newly-returned" Poles, who were themselves Austrian prisoners of war, Western Siberia is full of homeless, starving, Polish nationalities. The problem created in Poland by the returning prisoners and refugees is already acute, the government being forced to rely heavily on Red Cross help to feed and clothe them. Should the number of refugees still to return be in keeping with the estimate brought by the new arrivals it will mean an enormous additional burden for the government and Red Cross relief service.

'SEALED THEIR DOOM.'

Japan Will Not Be Cowed By Koreans Assassinating Japanese.

SEOUL, Korea, September 5.—Commenting on the attempted assassination of Governor-General Saito, the semi-official Seoul Press expresses the opinion that by this act the Korean agitators have "sealed their doom."

"If Korean misdoings think that the assassination of a few heads of the Government-General of Korea will cow Japan and make her relax her hold on Korea they are in a bad mistake. Japan is determined to hold the peninsula at all costs and will not let it go, no matter what things Korea agitators may do. They will now lose whatever sympathy they may have had among a section of the people and have sealed their doom."

SUFFERED TWO YEARS.

"For about two years I suffered with malaria fever and bad blood, trying everything that was recommended to me without benefit. Finally someone told me about 'Number 46 For the Blood' and I purchased a bottle from our merchant, Mr. Walter Fage, and it did me so much good that I kept on taking it, using in all three and one-half bottles. Today I am feeling fine and do not hesitate to recommend it for any trouble for which it is recommended."

"You are at liberty to use this letter in any way you wish for I know what Number 46 is."

H. I. BENNETT, Wakulla Fla. "Number 46 For the Blood" is compounded from ingredients set down in the U. S. Dispensatory and other authoritative medical books as follows: "Employed in diseases of the glandular system, by blood poison, scurvy, eczema, skin diseases, constipation, stomach and liver troubles, chronic rheumatism and catarrh, mercurial and lead poisoning. Under its use, nodes, tumors and serofulous swellings that have withstood all other treatments disappear as if by magic." Sold by Silverthorn Drug Co. adv.—

"The Uplifters," which comes to the Sherry theatre today, and tomorrow, is a delightfully original story, in which charming May Allison shines at her best. The play, written by Wallace Irving and published in the Saturday Evening Post, is an amusing and interesting story, in which she is the heroine. At first she is a girl who is in love with a man who is a member of the underworld, but she eventually finds her true love in a man who is a member of the underworld. The story is full of interest and excitement, and is a must for all who love a good story.

National Legislation of the Meat Packing Industry. 1. Will not increase the amount of meat you can buy for a dollar. 2. Will not raise more animals. 3. Will not produce more meat. 4. Will not stop fluctuations in livestock receipts or prices. 5. Will not increase the output of the packing houses. 6. Will not prevent strikes. 7. Will not reduce transportation charges. 8. Will not reduce the retailer's cost of doing business. 9. Will not increase the demand for the cheaper cuts of meat. 10. Will not lessen the consumer's demand for expensive delivery and credit service. 11. Can not at the same time raise prices paid farmers for live stock, and lower prices paid by consumers for meat.

But the slowing up of efficiency due to cumbersome governmental routine will have the effect of increasing the manufacturing charges between the cost of live stock and the cost of meats, thus forcing lower live-stock prices or higher meat prices.

The packing industry as now conducted, is characterized by keen competition, highest efficiency, and unusually low profits.
