**Plant That is Shunned.**  
One of the most interesting plants in the Atlantic states is the Virginia wild ginger. It is found both in the Virginias and as far south as Georgia. There are several other species in the Atlantic states as far south as Florida and northward to Connecticut. The plant grows in very hilly and wooded places, and is easily recognized by its kidney-shaped leaves and curious purple-brown flowers. These flowers grow one to a stem. No living thing will eat its bitter leaves and one rarely sees the flower unless one hunts for it, for it hides itself out of sight if possible.

These beautiful Gold Fish that you may have seen at Silverthorn's aquarium—they sell at following prices—35c, 50c, 75c, \$1 and \$1.50 each. dly 10-27-19
