The reading room is open to the public Monday, Wednesday and Saturday from 2 to 5 o'clock p. m. All are welcome to attend our services. **Cornie First and Washington**

Suffered With Rheumatism, Catarrh and Stomach Trouble.
"I think Number 40 For The Blood, as a blood purifier, has no equal. When I began to take Number 40, I was in very poor health, as I had rheumatism, catarrh, stomach trouble, head poisoning, and aitch that I had tried almost every do so he married Tessie Boyle, a beautiful, sweet, little dancing girl out of spite. He didn't love her, he hardly knew her. After a few weeks, when he had reaped his satisfaction by making the world think that he had lifted Milliecent for Tessie, he had the marriage annulled and proceeded to forget about the little girl who had been his wife for a few short weeks. But he hadn't reckoned with the hand of fate."

Know remedy to relieve. I have taken six bottles of "Number 40" and am on a fast road to recovery. I owe my life to it, as I use to weigh 127 pounds and now weigh 115, my usual weight. I could write more, but this should be enough to convince the most skeptical, and you are at liberty to use this letter any way you desire." **Geo. K. Fisher, Lima, Ohio.**
The ingredients in Number 39 For The Blood, are set down in the U. S. Dispensary and other reliable medical books as follows: "Employed in diseases of the muscular system, in blood troubles, constipation, stomach and liver troubles, chronic rheumatism, catarrh, stricture, skin eruptions, muscular and head poisoning. Under its use, scrofulous swellings that have withstood other treatments disappear as if by magic."
Prepared by J. C. Mendenhall, Evansville, Ind., 10 years a druggist. **Silverthorne Drug Store.**

SHIP CATTLE AND SHEEP TO OTHER FEED GROUNDS.
Among recent stock shipments were many sheep and cattle going out to feed through the winter in other places. Kelley & Gildersleeve had six cars of cattle bound for Prairie City, where H. F. Kelley has a very large stock ranch which he bought this year.
Jay H. Dotbin shipped six cars of sheep to Idaho to feed, also one car loaded with work horses, wagons and sleds for the use of the men in charge. George Chandler had a car of cattle for the Portland market and T. H. Morelock a car of hogs, which he bought from north and farmers.
These went on a special train, which picked up the Wade horses at Loring and more cattle at Wallowa. The load was too heavy for the locomotive and it had to get help to pull the train to La Grande.—Enterprise Record-Chiefman.

Always a Silver Lining.
Robert had lost a penny. His mother tried to show him the value of the penny by telling him that car fare is seven cents, and if she only had six cents and could not find the lost cent, she would have to walk, and not take the car. After thinking a while, he said: "But mother, you could buy an ice cream cone then, and then you could eat it while you were walking and that would make the walk pleasant."

OLIVE THOMAS AT ARCADE TODAY

"The Spite Bride," a S. L. Frank picture starring Olive Thomas, comes to the Arcade theatre, today only.
It's simply a knockout—the best thing that the screen has seen in many months. It has snap, dash and zest; a human picture of human people presented in a human way. And Olive Thomas was never better in her life. She is the essence of youth—youth at its finest—with its simplicity, grace, charm and wisdom.
"The Spite Bride" is a drama of youthful impulse with just enough thrills to make you a little bit creepy—not enough to make you spine-rip, cold—with enough suspense to keep you interested from start to finish—with enough laughs to give that nice warm feeling inside and a few tears which give you a pleasant, happy feeling afterward.
When Milliecent Lee threw over Billy Swaine for another man, Billy thought the world had come to an end. He did not know what to

do so he married Tessie Boyle, a beautiful, sweet, little dancing girl out of spite. He didn't love her, he hardly knew her. After a few weeks, when he had reaped his satisfaction by making the world think that he had lifted Milliecent for Tessie, he had the marriage annulled and proceeded to forget about the little girl who had been his wife for a few short weeks. But he hadn't reckoned with the hand of fate."

REX BEACH'S "THE BRAND"
VIRILE DRAMA OF ALASKA

Newest of Rex Beach's photo dramas produced for Goldwyn is "The Brand," based on the celebrated author's novel of the same name. It comes to the Sherry theatre, today and tomorrow and audiences are promised all the virility, the thrills and smashing climaxes found in a Rex Beach play.
The story is one of power and appeal. Dan McMill, an old timer in the Alaskan country, marries a girl from the East. She is Alice Andrews, a little vaudeville actress who has come there with her dancing partner, Bob Barclay. He (Barclay) desires her and when the old man consents her, marriage is the logical outcome. But she is not happy in this of the devotion of her husband. He offers her little besides a roof over her head, and the equal of her surroundings and her loneliness makes Alice want to go to the States when he refuses.
McMill discovers this and follows her to the States. Broken in spirit, he eventually finds a rich man of gold. McMill returns to town and discovers Alice, now a woman of her former self, defying rights to the rich man's estate while she is still married to her husband. From this interesting situation develops a conflict which engulfs both in a desperate burst of fury and a great battle is fought, such as only Rex Beach could create.
Prize will not be raised for this attraction notwithstanding the high cost of points.

How the Experience of Years Saves Money in This Post-War Maxwell

THE run of 300,000 Maxwells to date saves you many a worth while dollar in the new Post-War Maxwell. Those 300,000 saved in many ways.

1. They taught "short-cuts" in manufacturing.
2. They eliminated all experimental work—you don't have to pay for a single engineering mistake.
3. They developed quantity production which has reduced "overhead."
4. They enabled quantity purchases; and better materials are bought at lower costs.
5. They taught how to build an almost trouble-proof car; you seldom take a Post-War Maxwell to a repair shop.
6. They taught how to get the most mileage out of a gallon of gasoline, a pint of oil and a set of tires.
7. They taught how to build a car that the less skilled driver would find simple to operate and take care of.
8. They taught that it was better to build more and take less profit per car rather than build less and take more profit per car.
9. They taught how to put more and more value in the car without increasing its cost.

This Post-War Maxwell is next year's car. It contains features developed during the war, many of which will find their way into other cars in the summer of 1920.
