### A Woman Designed This

## Liberty Peninsular High Oven Cast Range

It gives the housewife, who out of necessity has to use coal or wood to do her cooking and baking, all the comforts and ease that are enjoyed by her city cousin who uses gas.

**Bake Without Backache**

Look carefully over the illustration of this wonderful "Liberty" range— "Liberty" from stove backing— "Liberty" from stooping— "Liberty" from backache. Not a bit like any coal or wood range you ever saw, changed and reconstructed in every detail so that the housewife considered advisable and necessary.

The first feature is the paper and kindling starts to heat the convenient elevated oven. The best travels UP as all stoves according to the laws of nature, and thereby never fully heats the feet of your feet.

Above the regular oven is an auxiliary oven for additional capacity, and below is a large warming closet for keeping prepared dishes warm.

You will appreciate the double size ash pan that needs emptying only half as often. You will like the high legs that make it easy to sweep and clean under the range. You will like the non-sticky white porcelain enamel that gives no chances for grease and dirt and rust.

Why not enjoy a "Liberty" range from now on?

### Always Be Sure of the Number

—When you trust to an old card or letter head you are apt to call a number that has been changed.

—And when you do call a "wrong number" you cause inconvenience and delay for yourself and for the party whom you call in error.

—Make it a practice to consult the Telephone Directory first.
