6,000 Cans of Canned Goods In Cans

TO BE SOLD AS QUICK AS WE CAN
PIGAWIGLE STORE ON THE ALLEY

They arrived Monday and are now on sale, and going good. And with this shipment along came more Government Bacon in 12 lb. cans. We employ no clerks, have no delivery system, no fixtures, don't use paper or twine, do our own work, in plain, clean overalls. We appeal to those who care to drop into La Grande's only Pigawigle Store. You won't wonder how we do it when you see how its done. We boast of having the largest coffee trade in La Grande. If you are particular about your coffee, come to this store after trying and testing all known brands. We lit, bought and stuck with Closset & Desers World-Wide Brand—Golden West—None Better—and if you don't want "Good Coffee," let this brand alone. We cater to those that are hard to please on coffee. Our place is located on a paved alley, back of the U. S. N. Bank. Right in front of the Peasey Store, and if you wish to cut across lots, go through the N. K. West store. Our back doors come together. Yours in haste,

TANLAC HAD SMALL START

ATLANTA, Ga., January 21.—Announcement has just been made here of the organization of the International Properties, Inc., to take over the business heretofore conducted by G. F. Willis International Distributor of Tanlac, and the Willis-McDuffie Company, Eastern Distributors, of this city.

The new Company has a paid in capital of one million dollars and is one of the largest proprietary medicine concerns in the world. The business of the corporation will be conducted by the present management, which owns the entire capital stock. It is understood that no part of the stock will be offered to the public.

Tanlac, their principal product, is probably the most extensively advertised and most largely sold proprietary medicine of its kind in the world, approximately 20,000,000 bottles having been sold since its introduction six years ago.

An instance of the rapid growth and development of the business with Atlanta as principal headquarters is the statement that its products are now advertised in more than seven thousand newspapers in the United States and Canada, and that the advertising appropriation for this year will be in excess of one million dollars.

This company is doing an annual business of from \$5,000,000 to \$6,000,000 with an annual payroll of approximately \$250,000. The executives and sales offices occupy more than an entire floor of the Fourth National Bank Building in this city.

RAILROAD NEWS

Because the chief occupation of La Grande people is said to be the O. W. R. & N. railroad and shops here, there has been a great deal of interest created by the various cutting of roads and also the small accidents and railroad happenings, which people are so vitally interested in. This has been neglected heretofore, but will be taken care of by men in the various departments at the railroad yard and shops.

The blacksmith shop's first report has been brought in.

Mr. and Mrs. Tom Wilson left last night for Portland on a combined business and pleasure trip.

Alex Matheson, who has been in poor health for the past month has gone to Portland, where he will undergo treatment at the St. Vincent hospital in hopes of recovering his lost health.

Quite a number of the blacksmith shop men are planning on going to Lone Pine, where a dance will be held at the home of Mr. and Mrs. E. S. Fields tomorrow night.

Mrs. G. H. Forward has gone to Olex, Oregon, where she will be the guest of her mother, Mrs. Mary Scott, for a short time.

Owing to the reduction of forces in the blacksmithing department, it is losing William Dowskey and Louis McNeill.

A House of Hearts.
A "henry" home is that of the wife of a doctor in California. The tables, chairs, etc., in fact, all the furniture of the peculiar home are heart-shaped! The owner's bed has a heart-shaped headboard supported on both sides by bedposts carved to represent Cupid's arrows. The heart-shaped headboard is decorated with an heart-shaped picture frame in which two angels embrace each other. The remarkable house is named the "Henry" and which means the membrane enclosing the heart and the great blood vessels.

World's Smallest Coin.
The coin of the least value ever used in the "mint," so called, such as the widow of the Bible contributed to the poor. Its shape was hexagonal and its value about one-fiftieth of a cent. It would take five thousand mites to make one dollar.
