Baldheads, Rejoice!

Successful experiments have been made in a new method for planting hair upon bald heads. It has been found that baldness never affects certain parts of the back of the head. Long thin strips of hair-covered skin cut from these parts may be grafted upon the bald area to form furrows. These fertile parts, when brushed, entirely cover the bald lines.—Brooklyn Eagle.

Sick Room Hint.

When patient's mouth becomes dry and parched during the night, a piece of orange held in the mouth from time to time will quench thirst. The orange should be cut into small pieces and put within easy reach of the invalid. It will be easier to handle than a glass of water and is more refreshing.

Persian Men Must Not Laugh.

In Persia a man who laughs is considered effeminate, but free license is given to feminine merriment.

THREE JEWELERS VISIT AT LAKE

HOT LAKE, Feb. 12.—(Special.)—During the past week there have been three jewelers as patients at the sanitorium. F. Friedlander, who is the owner of an attractive shop at 310-12 Washington St., Portland, and one of the most priminent jewelers of that city, has been here wth Mrs. Friedlander as a patient. E. L. Overjorde, of Coeur d'Alene, Idaho, and M. Druxman, of Aberdeen, Washington, prominent jewelers of their respective towns, are also patients here.

George Cochran accepts his illness with the same grim determination that he tries a lawsuit, and has, as usual, won. Mr. Cochran returned to hishom e in La Grande a few days ago.

Mrs. E. M. Johnson, of Ontario, Oregon, with her baby girl that arrived by the Caesarean route, is about ready to return home.

Mrs. F. L. Meyers, wife of Cashier Meyers of the La Grande National Bank, is progressing admirably and will be able to return to her home within a week.

Miss Anna Olson, Hot Lake Assistor, who has kept books so long because she likes it and she thinks and eats and sleeps in figures, while discussing her early youth with Doctor Phy a few evenings ago remarked that she and her sister were born in a dugout on the plains of Nebraska. Doctor replied that, at least, she would be consoled by the fact that should she fall out of her family tree she would not injure herself. Yet, Miss Olson and Mrs. Dresser, who traces one branch of her lineage to Joan d' Arc, are the best of friends—is it that "opposites attract each other?" No, not a bit of it. It is because that way down inside of each there is a heart of true womanhood. It is simply a matter of recognition.

Sim McDaniel, a boyhood friend of Dostory Phy, ras returned to his home in Wallace, Idaho after a rather serious illness. Sim is a brother of C. T. McDaniel, cashier of the Bank of Wallowa, Oregon.

Dr. W. A. Smith has recently been added to the staff at Hot Lake Sanatorium, his specialty being X-ray work. L. M. Munson, who has been a member of the sanatorium staff for several years has recently returned from a month's visit in Chicago.

The new building that will house the battery of hot and cold water pumps, the new auto mechanical fire engine, and provides ample room for a blacksmith and repair shop, is rapidly nearing completion.

Mrs. I. W. Drumsmith returned home Sunday after a week's visit at Perry.

The Get Together Club meeting which was to have been held this week was changed and will be next week at the D. W. Miller home. This meeting was to have been at Mrs. R. Herford's but, owing to her ill health and her sister, Miss Helen Peebler not being so well at this time, it was thought best to change it and the bad roads delayed the meeting one week.

Miss Bell Furgason is spending a week in town visiting.

The Frank McClure children are visiting with their father at the ranch for a while.

Symbols Had Meaning.

The shoes and sandals of the Greeks Romans, Egyptians and Jews were or namented with horns, crescents and other representations of the moon. At marriage ceremonies the custom of casting the shoe was combined with the throwing of flowers and various kinds of grain. These symbols and offerings seem to indicate the propitiation of a god, probably the deity who presided over productiveness.

Negroes Came Before Pilgrims.

Twenty negroes were brought to Jamestown in 1619 or the negro has been an American one year longer than the Pilgrims.

Domestic Storm Warnings.

The following pleasant recipe for being happy, though married, was given by an old village woman to her daughter, who was married recently: "Do as your father and I did, my dear. Whensoever he came home feeling contrary, he wore his hat on the back of his head, and that were a sign. And then I never said a word. And whensoever I felt cross or crooked, I threw my shawl over my left shoulder, and then he never dared say a word."

Long Lapse of Memory.

One of the most famous examples of official oversight occurred in connection with Drury Lane theater, where for nearly two centuries soldiers stood on guard outside during each performance. Many thought the guard was there in recognition of Drury Lane as the theater royal, but the real fact was that it was sent there originally by George II. to prevent a threatened riot. The order not being countermanded, the guard was continued until 1801.—London Times.

Audubon's Method.

No one, I think, paints in my method; I, who have never studied but by piecemeal, form my pictures according to my ways of study. For instance, I am now working on a fox; . . . and when satisfied with the truth of the position, I take my palette and work as rapidly as possible; the same with my birds; if practicable I finish the bird at one sitting—often it is true, of 14 hours—so that I think they are correct, both in detail and composition.—Audubon.
