WHEN A FELLOW'S STRONG AND WELL

and the world seems his to conquer, it's pretty hard to work up any real concern over the future. But assuredly it deserves some serious thought—for no one can afford to forget that youth is the accepted time of preparation for old age. The man who consistently builds up a savings fund forestalls dependence in later years. This institution welcomes the young people's accounts.

COMPOST HEAP MADE FROM GARDEN WASTE

Organic Rubbish of All Kinds Especially Suitable.

Start by Laying Down Bed of Stable Manure and Alternating With Refuse Matter—Especially Valuable for Hotbeds.

Garden waste, decayed vegetables, dead vines, weeds, and the organic rubbish that collects about the place during a busy summer may be cleaned up and put to work again through the agency of a compost heap, say specialists of the United States Department of Agriculture. Start the heap by laying down a bed of stable manure which has not been burned or heated. The size of the plot will vary with the amount of refuse to be used; for ordinary uses, if the bed is made eight feet long by six feet wide and two feet deep it will serve the purpose. Over the manure spread a two-foot layer of refuse and cover with another layer of manure. This last layer need be only a foot in thickness.

If it is desired to add to the heap from time to time the top layer may be opened and the new material emptied into the hole thus made. This is convenient for the suburban home where there is no animal to consume the kitchen waste. In the spring the heap is well mixed with a fork and the compost is ready to be spread on the garden plot. The heating manure will effectively destroy any weed seed present and will also break down the structure of most of the materials that have been thrown upon the pile. The process may be continued indefinitely by simply adding enough manure to insure heating. Compost is especially valuable for use in hotbeds and cold frames.

Shook for the Explorer.

The sable coat of 150 skins for which \$10,000 was paid recently is not, as might be supposed, the most expensive fur coat in the world. Some years ago the mantle was presented with an ermine mantle valued at \$12,000; and an explorer in eastern Greenland recently discovered a native girl wearing a dress of silver fox skins worth, at present prices, nearly \$30,000.—London Tit-Bits.

Satisfaction or Money Refunded.

A new bathing suit invented by an official of the royal army clothing department is claimed to make dressing impossible. But should this bathing suit fail to save any person from drowning he can call at the office and have his money back.—London Pictorial.

Strange Experience.

TOM MOORE HAS FUNNY PART IN "STOP THIEF"

"Stop Thief!" the Goldwyn picture at the Sherry Theatre last times today is said to be one of the best comedy vehicles ever interpreted by Tom Moore.

More funny things happen in the 48 hours within which the play is supposed to take place than would be thought humanly possible. Tom Moore and Hazel Day as the thieves, disguised as maid and detective, enter the orderly house of the Carrs, where a wedding is pending, and turn it into a chaos of confusion, during which valuables disappear and reappear in the most unexplainable manner.

"THE TRUTH ABOUT HUSBANDS" NOW SHOWING AT THE ARCADE.

Arthur Wing Pinero has an international reputation as a playwright and "The Truth About Husbands," or "Profligate," as it was called in the stage version has always been regarded as one of his most brilliant society dramas. This feature will be the attraction at the Arcade Theatre today and Tuesday.

Dunstan Routhaw is a wealthy bachelor and dilettante.

Under an assumed name he meets Janet Price, who is a librarian living in a suburb. They fall in love and he promises to marry her. Later he weds Leslie Brownell, a young society girl, and goes abroad with her. Leslie learns the truth about her husband, whom she has always regarded as beyond reproach.

Leslie leaves Dunstan and is finally reconciled to him at the deathbed of Janet, who is instrumental in bringing them together again. Routhaw exhibits extreme remorse for his desertion of Janet although the latter intercedes with Leslie for him, begging her to forgive him as she has done.

OREGON CITY MAN GAVE UP

Health Was So Bad He Couldn't Work—Tanlac Puts Him Back On His Feet.

"My health got so bad I had to give up my trade, but since taking Tanlac, I have gained twelve pounds in weight and have not felt better in years," said Samuel H. Johnson, a well-known painter living at Oregon City.

"For the past seven years my stomach and kidneys were all out of order and often I was so bad off I had to stay in bed three and four days at a time. My appetite was about gone and sometimes I went for several days without touching a bite. My stomach was so upset that often I wasn't able to retain even water or milk, much less any thing solid. I would bloat up with gas and my heart would palpitate so terribly I became alarmed for fear I had heart trouble.

"Every few days I had awful sick headaches and most of the time there was a mean taste in my mouth. My kidneys worried me constantly and I had a severe pain in my back that kept me awake many a night. My complexion turned as yellow as a pumpkin and finally I got so bad off I couldn't do any hard work and had to give up my trade as a painter.

"That was the condition I was in at the time I got hold of Tanlac. My stomach feels like new and I have the finest kind of appetite, and it makes no difference what I eat, I can digest it without any trouble at all. My kidneys don't bother me any more and the pain has left my back entirely. Those sick headaches have been broken up altogether. I now have a good healthy color and am twelve pounds heavier. My health is better than it has been in many years, and I am feeling so fine I am planning to go back to work."

Tanlac is sold in La Grande by Sullivan's Drug Store; Clyde Kiddie of Island City and by the leading druggists in every town.—Adv.
