

"Snappy Service"

GIVES OUR STORE AN AIR OF
UP-TO-DATENESS SIMILAR
TO BIG CITY SHOPS

THINGS THAT CAN'T BE BOUGHT—

It is possible to buy power, but not respect—position, but not loyalty—followers, but not friends. In fact, the most precious things in life can't be bought. This truth is nowhere more vividly exemplified than in the drug shop.

GOOD WILL is a very valuable asset in the practice of pharmacy—yet it is overlooked by many dealers in their strife for quick profits.

Immediate profit has never been our chief aim, for we realize that the increased business which comes to us because of quality goods and superior service will enable profit to take care of itself.

When selecting a family drug store, be influenced by other things besides the lure of low prices. Consider various service features which contribute to your welfare.

BOY SCOUTS

(Conducted by National Council of the
Boy Scouts of America.)

BOY SCOUTS' ONE BIG NIGHT

The evening of February 8 is the date that every boy scout in the land remembers. It is the red-letter date in his calendar. For it was on February 8 that the Boy Scouts of America was incorporated, and it is an established custom for all scouts to celebrate the event annually.

The custom has assumed the form of a huge birthday party for the whole organization, starting with or at least including February 8, and continuing through Lincoln's birthday, February 12. This is the eleventh birthday year of the scouts. The idea back of the celebration is to bring more definitely to the attention of each community the value of scouting as a program for work with boys for the development of character and training for citizenship.

At the hour of 8:15 on February 8 every registered boy scout, no matter where he may be, is supposed to stand at salute and commit himself anew to the scout oath and law. In most cases the scouts gather for this ceremony in their troop meeting places. The emphasis of this celebration is such as will impress the solidarity of the movement upon the entire membership, as well as foster the feeling of the individual responsibility of each scout to the organization as a whole.

Heretofore the scouts have stood at salute when their watches announced 8:15, which, on account of the difference in time between East and West did not make the act simultaneous. This year the effort was made to have the salute at exactly the same moment everywhere, corresponding to 8:15 eastern time, the time of the clock in the national headquarters.

FORMER SCOUTS IN COLLEGE

An interesting development in scouting relationship with the universities has been seen in the work of the Ithaca (N. Y.) council, Boy Scouts of America, in connection with Cornell university. A meeting of the students attending Cornell university who have been scouts was held. The local council brought before these students their desire to be of assistance to them and serve them in every way possible while they are at college, and to bring before them their opportunity to help scouting nationally. Several of the young men who have been scouts are helping with the local work. One of them who came to the meeting was Choussou-King, who has been an assistant scoutmaster in Shanghai, China.

At Syracuse university a similar movement is on foot in the way of getting together students who have been scouts.

Recently at Oxford university in England, National Educational Director George W. Barclay investigated the University Scout club there and found it a very helpful activity. This suggestion may be of real service in college towns, not only to the students but to the boys of that community.

SECOND CLASS SCOUT HERO.

One of the recent recipients of the gold honor medal awarded by the national court of honor of the Boy Scouts of America is Joseph H. Marcks of East Liverpool, O. While still a second class scout Marcks, when on a camp trip, went to a midnight fire with his scoutmaster, W. B. Williamson. As the two passed along a high-tension wire carrying 2,200 volts of electricity, Marcks and as it fell struck the scoutmaster across the chest. Fully realizing his own danger, Scout Marcks made every effort to save his companion, by trying to pull him away from the wire. Having succeeded in doing this, he was himself burned as he was himself and suffering intense pain, he worked over the unconscious and dying scoutmaster, rendering first aid until he himself fainted.

NATIONWIDE SCOUT GOOD TURN.

"If there is any one time more than another when the good turn in scouting should be emphasized and lived up to with double spirit it is upon the occasion of our anniversary celebration," said Chief Scout Executive James E. West in announcing plans for the celebration of the boy scouts' organization's eleventh birthday. "I want every boy scout and scout troop from coast to coast to do more turns, better turns than ever before. Make the good turn idea so infectious that all America will be doing it in the same spirit which the scouts carry it out daily."

SCOUTS GUARD UNIQUE TREE.

The only specimen of a trailing juniper tree left in Pennsylvania has been placed under the care of the boy scouts of Elizabethtown. It is on a farm near that town. Is a little less than two and a half feet high yet has a spread of 45 feet, and covers over 2,000 square feet. Prof. J. S. Hille, chief of the research bureau of the department of forestry, who recently saw the tree, estimates that it is at least 100 years old.

OREGON LEADS OTHER STATES

MORE LIQUOR STILLSARE SEIZED
IN THIS STATE.

Figures Compiled by Federal Prohibition Director Show State at Head of Western Division.

PORTLAND, Mar. 11.—With a smaller force of field agents than any other state save Nevada, Oregon led the western division of the federal prohibition law enforcement bureau—including Oregon, Washington, California, and Nevada—in number of stills seized during the first six months following enactment of the law and incurred smaller expense than any of the three other states.

This was developed in figures announced by Johnson Smith, federal prohibition director.

Seize 88 Stills.
In these six months, with a field force of eight agents, working under supervision of three inspectors, 88 stills for the manufacture of moonshine whisky were seized. Court fines for liquor violations and confiscation of property owned by the violators totaled \$32,349. The entire expense, with the exception of salaries of the agents, incurred in this time was \$4,289.

DECIDE ON GRADING WORK

COUNTY AND CITY OFFICIALS
TO JOINTLY PAY.

The Victory Way will probably be a reality before spring closes. At the meeting of the city commission Wednesday night Commissioners W. D. Grandy and J. D. McKennon, reported that they had conferred with the county court and that Judge

Couch has assured that that grading of road would be done by the county road machinery, the city's share of the cost being charged to it.

City Manager George Garrett reported that a large amount of dirt removed from the streets was being hauled in the low places, making fills that are very necessary.

It was also stated by Commissioner McKennon that the committee of the Neighborhood club had decided to leave the street the present width, 60 feet, as the cost of moving trees, telephone poles, etc., in widening the street ten feet on each side would be prohibitive. The roadway will probably be ready for the trees April 1.
