CENTER OF POPULATION

Less than 300 yards west of the Monroe county line, in Owen county, Indiana, the center of the population of the United States under the 1920 census has been located on John E. Horrell's farm of 90 acres. Mrs. Horrell is shown standing beside the board marking the center.

NEW HOTEL AT UNION TO OPEN ABOUT MAY 1

(Continued from Page 1)

and the city in which it is located, that event will be one to impress itself upon the memory.

With flower girls and May Day features, with that portion of the Grande Ronde valley giving off her spring fragrance in her wild flowers, with Catherine Creek dancing and prancing through the city of Union apparently prattling cheerful song and praise for the occasion, with every citizen of the county bulging with pride in the work well done, the hotel directors will proclaim the hotel opened for all time to the general public.

A Fine Structure

The building is three stories high, built along the most modern architectural lines of red and buff brick. The lobby is one of the most beautiful in the northwest, with its winding stairway on either side, its ladies rest room at one end and the handsomely decorated dining room on the other, touched off with the reflected light from the white tile floor. French doors stretch across the front of the building.

On the second and third floors the greatest skill has been used in laying out the plans to utilize all floor space and make the rooms in such a way that the shower and tub baths, which are numerous, will serve the greatest number. No hotel in the country can make the tourist feel so much at home, for no other hotel has been constructed with the tourist's welfare so much in mind.

The broad veranda on the second floor invites the tired human being on heated summer afternoons, for the veranda is perfectly shaded and has an east exposure.

The basement contains a billiard room, a barber shop, baths and lavatories, for the public and there also is located one of the most modern heating plants that is possible to install, furnishing hot water and steam to all parts of the building and working in purely automatic manner.

The cold storage and ice machines are also located in the basement of the building.

Most modern electrical wiring and electrical fixtures have been installed all of which adds to the beauty of the interior. For the present, the hotel will use electric current from the general system, although there is some talk of putting in an individual lighting plant later on.

The building is not entirely completed, the third story still being in the hands of the workmen who are working hard to clean up the job so that Jones & Coolidge can begin tiotting the rooms on that floor.

All Union Interested.

Nothing more refreshing exists from a community viewpoint than the interest taken by the entire city of Union in the erection of the hotel. The project is being financed by local people and nothing is being spared to keep the standard of every feature in the first-class column.

M. S. Levy is one of the leading figures in promoting the hotel, and with him are associated as a board of directors W. R. Hutchinson, S. A. Purcell, L. A. Wright, Mary E. Eaton, J. F. Hutchinson.

The hotel has not yet been leased, for that feature of it. The furnishing of the building will be determined this week. When entirely completed this structure will have cost $150,000.

Limit to Contentment.

Jud Tunkins says the contentment which lasts longer than 24 hours is liable to degenerate into common lastness.

Chamberlain's Cough Remedy—Nothing So Good for a Cough or Cold.

"Everyone who has used Chamberlain's Cough Remedy speaks well of it," writes Edward P. Miller, Abbottstown, Pa. "Those who once use this preparation are seldom satisfied with any other. It is excellent to allay a cough or break up a cold."

Edison reveals voice secrets

ONLY 22 singers, out of 3,800, sing pure notes.

Many popular opera and concert stars have serious defects in their voices.

"Stage-personality" enables many a singer of poor voice to gain success as an operatic star.

These amazing facts are told by Mr. Edison in a recent interview on "The Imperfections of the Human Voice." Ask for a copy.

The NEW EDISON

"The Phonograph with a Soul"

Vote!

Mr. Edison has listed his 25 favorite tunes. Ask for a copy of "What Edison Likes in Music."

What other great American's favorite songs would you like to know? Compare—vote!

Receive free, Mr. Edison's favorite program; a pen-etching by Franklin Booth, 14 x 17 inches.

He detected and analyzed these vocal defects through the New Edison.

If the New Edison can reveal the defects of "mediocre" voices to scientists,—it can bring the perfections of great voices to you.

You hear the world's greatest music at its greatest, when you hear the New Edison.
