

"Snappy Service"

GIVES OUR STOKE AN AIR OF
UP-TO-DATENESS SIMILAR
TO BIG CITY SHOPS

"LITTLE AND OFTEN FILLS THE PURSE"

This price proverb has always been our slogan. We prefer large sales and small profits to small sales at exorbitant profits. The economy of shopping at our store is further emphasized by the fact that we sell quality goods only. The fact that we buy for cash and discount all bills enables us to sell at a closer margin than most druggists. We feel that immediate profit should not be the sole thing to strive for in a family drug store. In other words we feel that if the service is right, profit will in the long run take care of itself.

If you appreciate the advantages which our store affords, we ask the privilege of serving you regularly.

Yes, Verily.
It's a poor rule that doesn't work both ways and that is as true of the Golden Rule as any other.—Boston Transcript.

Vacuum-Cleaning the Cat.
Hold the sweeper near the cat, turn on the current, and then comb or brush the animal's fur. The suction of the machine will take up the loose hairs.

Pews Only for the Nobility.
So far as is known, pews were first placed in churches for the use of Norman nobles. Ordinary worshippers sat on three-legged stools.

Best Is Everything.
The man who has done his best has done everything. The man who has done less than his best has done nothing.

Chinamen Outdress Women.
In China the men as a rule are more extravagant in dress than the women.

Fear Led to Dish Covers.
Dishes were not covered at first for the purpose of keeping the food warm. They were covered from fear—the fear of poison. In the Middle Ages people were afraid that poison might be introduced into food between the kitchen and the table. Hence the cook was ordered to cover the dishes and the covers were not removed until the master of the house sat down to eat.

Good Rules for Life's Conduct.
Never despise anything because it seems wanting in brilliancy. Learn to recognize virtue and honor and excellence, no matter how lowly the garb or humble the dwelling in which you find them. The only thing to do with any excellence is, love it; with honor, emulate it; with virtue, revere it; and the highest compliment you can pay to character is, possess it.—Selected.

Relapse Ahead.
A physician claims to have restored two patients to sanity by pulling their teeth. When they see the bill they may go crazy again.—Pittsburgh Sun.

This monument, erected to the memory of Joseph Bradford Carr, in Oakwood Cemetery, New York, is a combination of classic and modern ideas in monument work.

EASTER CAROLS SUNG BY JUNIORS

SIXTY JUNIORS OF THE CITY TAKE PART IN JOY SERVICE.

Breakfast Is Served at the Mossman Home Following the Hour of Songs.

Easter carols were sung at many of the residences and hotels of the city, yesterday morning between 7 and 8 o'clock, by nearly sixty juniors who have been meeting each Sunday afternoon at the home of Dr. and Mrs. E. P. Mossman. Five cars carried the youngsters from place to place, each car being filled full of happy, joyous youngsters.

Following the singing, the juniors were taken to the Mossman home, where a delicious Easter morning breakfast had been prepared by Mrs. Mossman and members of the Bible in Art Class, even members now out of town helping in the breakfast. The breakfast tables were reminiscent of Easter, with their yellow Easter flowers. Dainty little old-fashioned corsage or buttonhole bouquets were presented each guest, the flowers being made of candy, wrapped in oil paper. Another member of the class had donated a beautiful picture to each guest, the picture being one of those which has been studied during the past several weeks by the class.

No meeting of the class was held in the afternoon, but the juniors will meet again on next Sunday afternoon.

GIBBONS' BODY TO LIE IN STATE

BALTIMORE, Mar. 28.—The body of Cardinal Gibbons was taken today from the room where he died to the cathedral, where the body will lie in state until the funeral Thursday.

CROSSEN IS GIVEN POSSESSION OF FARM BY COURT

Judge G. W. Phelps, in the case of E. Crossen vs. Brooks Campbell this morning rendered a decision in favor of Crossen. The suit was over a tract of land near the city and Crossen sought to obtain possession. The property had been bought from Mr. Crossen's mother, subject to Crossen's paper on the place, dispossessing having been asked because Campbell's agreement had not been carried out.

INVESTMENT INCREASE IS TO BE TAXED

(Continued from Page 1)

The government took the stand that "income" must be interpreted as representing any gain accruing to the taxpayer within the period under consideration. Prior to the adoption of the 16th amendment, the court was told income was considered by the government branches to include gains and profits derived from the sale of capital assets.

SEINN FEINERS ARE BLAMED FOR FIRES

LONDON, Mar. 28.—Twenty frame buildings were burned in the New Castle district, others at St Albans and in Hertfordshire, Beaconsfield and Buckinghamshire, alleged to be due to the Sinn Fein activities. The government buildings in London are guarded.

Orang-Outang Misnamed.
Occasionally the underbrush (southeastern Burma) crashed beneath the tread of some heavy animal—a rhinoceros perhaps or possibly an orang-utan. I might add, parenthetically, that orang-utan means in the Malay language, "man of the forest," while orang-outang, the name which we carelessly apply to the great anthropoid, means "man in debt."—K. Alexander Powell in Scribner's Magazine.

Furniture Cleaner.
Home-made furniture cleaner can be made by adding one tablespoonful of turpentine and three tablespoonfuls of lard or lard oil to one quart of boiling water. When cool enough to be comfortable to the hand, use as a wash water on all furniture except white enamel. Soft cheesecloth for wash cloth and a dry piece for a soft wiping cloth will give the good polish of clean wood. There being no varnish in the mixture, the furniture will not be sticky from this cleaner.

Hawks Migrate En Bloc.
The autumn migration of hawks is made partly en bloc, a large proportion of the total population of several Northern species appearing and passing southward at certain more or less definite times. Often one "wave" of the birds will follow a period of quiescence, which will be in turn succeeded by another wave.

First Roller Skates Crude.
The first roller skates patented were made in London in 1820. These and other models brought out later could be guided in curves only at the expense of enormous friction. It was not until 1902 that an American brought out a roller skate that made curves and figures "such as those possible on ice skates."

Special Equipment for Desert.
The military and civil have been equipped for the French railway to the Sahara that are specially designed to withstand the heat and cutting effects of sandstorms.

Mrs. Robert O. Reynolds

"I have actually gained twenty-five pounds and I just think Tanlac is the grandest medicine in the world," said Mrs. Robert O. Reynolds, 127 North Denver St., Kansas City, Mo.

"For ten long years I suffered from a very bad form of rheumatism, stomach and nervous troubles. My appetite was very poor. What little I did eat soured on my stomach and I suffered the most severe pains in my back, hips and shoulders. My rheumatism was so bad that I could not raise my hands to comb my hair and my arms hurt me to my finger tips. I became so weak and run down that I lost all my energy and life had become almost a burden. I tried many things but nothing helped me.

"I had only taken my first bottle of Tanlac when I noticed my appetite was improving and I could sleep better at night. I have taken three bottles and the way it has helped me and built me up is really astonishing. I can eat anything and everything without the slightest disagreeable after-effects. I sleep just fine at night and am in better health than I have been for years. I am glad to give this statement, hoping that any who are suffering as I did may experience the same wonderful results, which I believe they will if they give Tanlac a fair trial."

Your Efficiency Depends on Your Eyes

Good work needs good eyesight, because, as a chain is no stronger than its weakest link, so a man is no stronger than his weakest faculty. And now, when the quality of a man's work will play such an important part in the determination of his income, you owe it to yourself to keep your faculties alert, keen—fit for the competition of industry.

DON'T WONDER WHETHER OR NOT YOUR EYES ARE EFFICIENT. Have them examined — and KNOW!

U. S. Government statistics prove that over 80% of the men examined for the army had defective vision. This should indicate that possibly your eyesight is not so efficient as it should be. Have your Eyes Examined—and KNOW—as every Live American should.
