Secretary is Complimented—

Mrs. Fay Catlin made her third visit to Cove Saturday and Union County Red Cross could not put a more helpfully comprehensive secretary in the field than she, is the thought that others, looking to the uplift of their community, have in mind while conversing with her.—Union Republican.

Business in Baker—

Julius Roesch, far famed as an Eastern Oregon brewer in pre-prohibition days, was in the city yesterday transacting business. Mr. Roesch when closing down days came, was prepared financially and he accepted the inevitable complacently. He retired to live comfortably ever after.—Baker Democrat.

Will Move Monday—

The offices of the state highway department in La Grande will be moved to the La Grande National bank building Monday. Three rooms will be occupied by the engineers who have been in the city hall. The change is made necessary largely because of the necessity of the city using the quarters in the city building for the engineering work in connection with the survey of the proposed water system for the city.

Ill at Home—

Thomas E. Kasten, passenger brakeman, is reported to be seriously ill at his home, 810, Main Ave.

McClellan Runs Transit—

Dan McClellan has been engaged to run transit on the survey being made of the contemplated water system for the city. This job is considered the most important one on the survey party aside from that of R. E. Koon, consulting engineer, who is in charge of the work. Besides McClellan and Koon there are at present three other men on the survey and a level party of two will be put on within a short time to take the levels along the lines being surveyed now.

More Oldsmobiles Arrive—

W. H. Bohnenkamp Co. have just received their second carload of Oldsmobile Fours. Their first carload was received about three weeks ago and all the Fours in the shipment have been sold. One six-cylinder Oldsmobile still remains on hand from this shipment. A portion of the shipment just received has also been sold and the local dealers state they expect to sell the balance within the next few days. The way these cars are selling is just one more nail in Old Man Gloom's coffin. It shows conclusively that if the merchandise is offered to people that they want and at the price it is worth that they will buy. W. H. Bohnenkamp Co. expect to dispose of all the Oldsmobile Fours that their allotment calls for without difficulty.

Work Being Pushed at Country Club—

At the regular weekly meeting of the board of directors of the country club last Wednesday evening it was unanimously voted to rush the work at the country club through to completion at once. By doing this work will be provided for a number of men at a time when it is much needed. Accordingly a large crew was started Friday morning and every effort will be made to complete the work as soon as possible. A committee was also appointed to work out the plans for a big concrete swimming tank and as soon as they are completed a contract will be let for this work also. Staffing morning a volunteer crew of rock pickers are requested to be on hand at 8 o'clock to assist in cleaning up the course. All the members who can get away are expected to be there. It is further requested that they come to work and not to play golf.
