"BEHOLD MY WIFE!" APPEALING PICTURE OF BIG NORTHWEST

An appealing story of the Canadian Northwest is promised in Geo. Melford's latest production, "Behold My Wife," which will be seen at the Sherry Theatre, for two days commencing today.

The action centers around the incongruous marriage of Frank Armour, the younger son of an aristocratic English family, and Lulu, granddaughter of an Indian chief, whom he meets while serving as an officer of the Hudson's Bay Company in northwestern Canada. On his return to the company's trading post from a hunting expedition, Armour receives word that his fiancée in England has jilted him, largely on account of his family's opposition to her. In a moment of drunken rage Armour marries the Indian maiden and sends her back to England to humiliate his family. However, through the efforts of Frank's elder brother, she develops into a beautiful and polished young woman and now young Armour himself is regenerated forms the theme of the story.

Your Efficiency Depends on Your Eyes

Good work needs good eyesight, because, as a chain is no stronger than its weakest link, so a man is no stronger than his weakest faculty. And now, when the quality of a man's work will play such an important part in the determination of his success, you owe it to yourself to keep your faculties alert, keen—fit for the competition of the day.

DON'T WONDER WHETHER OR NOT YOUR EYES ARE EFFICIENT. Have them examined — and KNOW!

U. S. Government statistics prove that over 80% of the men examined for the army had defective vision. This should indicate that possibly your eyesight is not as efficient as it should be. Have your Eyes Examined—and KNOW—as every law-abiding American should.
