PREVENTATIVE MEDICINE.
The tendency of medical science is toward preventative measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.—adv.

See Us Demonstrate This Great Exclusive Feature

SELLERS leadership is not a matter of chance. It has been won only because of the superior service rendered by the Sellers.

Our Automatic Lowering Flour Bin, for example, costs us $52,000 extra each year—that is, $52,000 more than the best of other types of bins would cost us. But see the service it gives.

Instead of having to clamber up on a chair, straining and puffing, with a heavy sack of flour to fill the bin, you merely pull the Sellers Automatic Flour Bin down level with the work table. You fill it with absolute ease. Then a quick movement unlocks it and it slips quietly up into place. This single, long-wanted improvement is welcomed by women everywhere as a godsend. Any physician will approve it.

SELLERS KITCHEN CABINETS
"The Best Servant in Your House"

But the Automatic Lowering Flour Bin is only one of the exclusive developments which have helped win leadership for the Sellers. Altogether there are 15 important betterments combined in no other cabinet.

To supply them costs us over $100,000 extra each year, but they have won preference for the Sellers in thousands of homes.

Yet this cabinet of super-convenience costs you little, if any more than an ordinary Kitchen Cabinet.

But come in and see the Sellers. Judge it yourself. Come soon.
