## EUROPEAN MARKET IS NOT GOOD

(Continued from Page 1)

change in preventing people from getting into a normal buying mood, he stated.

### Liberal Credit

One of the unfavorable factors so far as the American exporter and especially the small exporter, is concerned, is that he expects to sell for cash or on delivery of his goods to the European jobber. European business, Mr. Stackland stated, is based on credit foundation and from 30 to 60 days credit is expected as a rule. Because of this inability of the American to meet the terms of the European the former is losing much profit.

As an example of the profits lost by the Americans, Mr. Stackland stated that British merchants who buy on the terms given by American exporters do a large business with Holland. In the case of apples, the British merchant by extending thirty to sixty days credit gets a profit of 11 a box. The Dutch jobber who buys these apples in turn sells a large part of what he buys to Europe at a profit, giving the central European merchant an opportunity to get his money, or part of it, before he pays for it. If he could meet the terms of the European business man our profits would be immeasurably increased," Mr. Stackland said.

### COMING EVENTS.

April 11.—Monthly meeting of American Legion Post No. 459 in Eagles Hall.

## PRESIDENT IS WORKING ON MESSAGE

(Continued from Page 1)

and postmaster, F. W. Collier—all Republican holdovers. State delegations sworn in by Speaker Gillett.

Resolutions adopted appointing committees to notify the President and the Senate of the assemblage of the House.

Electors of Republicans and Democrats to committees.

Adoption of rules and adjournment until tomorrow.

The Senate program was similar but more brief because of previous organization. It provided:

Call to order by Vice-President Coolidge and opening prayer by chaplain.

Clerk George Sanderson reads President's proclamation calling the extra session.

Swearing in of two new Senators, Norbeck of South Dakota and Bursam of New Mexico, Republicans, who were not present during the extra session of the Senate after March 4.

Roll call and declaration of a constitutional quorum.

Resolutions appointing a committee—Senators Lodge of Massachusetts, and Underwood of Alabama, Republican and democratic floor leaders, respectively, to notify President Harding of the Senate's presence, and of committee for similar notification of the House.

Adjournment until tomorrow.

**Changes are Few.**—Few important changes in Republican organization in either Senate or House were in prospect. Rep. Mondell of Wyoming continued as Republican floor leader in the House and Rep. Kitchin of North Carolina returned to that position for the Democrats. Republican committee appointments were increased and Democratic reduced on all Senate and House committees because of the Republican gains in Congress. Chairmanships mostly remained unchanged. Under new Senate rules, many Senate minor committees were abolished and Senators' committee assignments reduced.

The first legislation planned during the extra session is the Fordney emergency tariff bill. Leaders hope to get it into President Harding's hands this week, virtually in the form in which it was vetoed by former President Wilson last March.

Permanent tariff revision is expected to follow the emergency bill in the House.

**Colombian Treaty First.**—The Senate calendar is headed by the \$25,000,000 Colombian treaty, with an agreement to vote in eight days. Ratification is being predicted although there is vigorous opposition from a large faction of Republicans, who plan after tomorrow to open the doors to debate. It is expected that President Harding's special message to the Senate in extra session last month will then be made public.

Immediate action is also planned by the Senate on many nominations. A long list, including recess appointments, is expected tomorrow from the White House.

Two of the annual appropriation bills needed July 1—the army and navy budgets—are to be passed through early in the session. The army measure, carrying \$345,000,000, suffered a "pocket veto" by former President Wilson last March, while the navy bill, in which the House appropriated \$395,000,000 and the Senate naval committee \$496,000,000, failed in the Senate fight over disarmament. New recommendations as to a military program are expected from the administration. Prompt action on the two bills by the House is being predicted, but with further delay in prospect in the Senate by further disarmament agitation. In that connection, Senator Borah promises to renew his effort for action requesting the President to have the United States, Great Britain and Japan brought into a naval reduction conference.

**War Status to Be Considered.**—International relations promise to play a large but probably delayed part in the new Congress. Of first consideration is termination of the war status with Germany and Austria. Restoration of trade with Russia, Japanese questions and possibly Panama canal tolls were other subjects in the offering.

In addition to the program of tariff and tax revision, the Republican leadership promised hasty action to curtail immigration. The measure vetoed by former President Wilson was scheduled for early passage, possibly first in the Senate, while the House is engaged in fiscal reform.

Other important measures for which pressure is in prospect:

A new congressional reapportionment bill in place of the measure which failed recently in the Senate.

The Calder coal bill for publication of coal information.

The packer control bill.

Gold Storage regulation.

Patent office re-organization.

The Towner maternity aid bill.

The Wilson bill liberalizing the war risk insurance act.

Philippine and Porto Rican independence.

Amnesty for persons convicted under the espionage act.

Restriction of allied loans.

Railroad reform also is to be prominent. A resolution authorizing an exhaustive investigation of railroad finances and other affairs by the Senate interstate commerce committee is to be introduced at once by Chairman Commons.

**Judge Knowles Recovering**—Judge J. W. Knowles, who was confined to his bed several days last week, is able to be out again. He is suffering from a bad cold and is still not in the best of health but is feeling much improved.
