Music's Perfect Mirror

The NEW EDISON
"The Phonograph with a Soul"

The New Edison is like the perfect mirror that reflects form and feature, true to every line and subtlety of coloring. It gives you an exact RE-CREATION of the singing or playing of the living artist or artists.

Mr. Edison spent 7 years of his time and 3 millions of his dollars to develop the perfect realism of the New Edison. He has proved this perfect realism by comparing the New Edison with living artists 5,000 times before more than 5 million people. The New Edison is positively the only phonograph which can sustain this test.

We have, for you, a proof on offset paper of the famous Franklin Booth etching of Mr. Edison, as he looks today. Size 12 x 19 inches. Bears no advertising matter; suitable for framing. Just fill out the ballot—and bring or mail it to us.
