## FINDS GOLF A GREAT STRAIDIER OF NERVES

Next to making pictures, William Russell, the brawny Fox star, has two hobbies, golf and solitaire, especially golf. No sooner has the director announced the close of the day's work than the star is off to his golf club.

Solitaire for an hour or two in the evening after the daily golf session comes as a means of complete relaxation, he says.

Russell's latest picture is "The Iron Rider," a powerful story by Frank L. Packard, author of "The Miracle Man." It will open at the Star Theatre Saturday.

## WILLIAM FAVERSHAM TO APPEAR IN "THE SIN THAT WAS HIS"

That the man who tries to do the right thing is frequently misunderstood and very wrongfully misjudged is shown in "The Sin That Was His," the big Solanick Picture starring William Faversham, which will be shown at the Arcade theatre today, Friday and Saturday, when Faversham is seen gambling with a drunk boy and taking his money away. He is censured by men who do not know that his real motive is to sear the boy, show him the evil results of drinking and gambling and then give his money back. Later on, while on an errand of good, he is taken for a burglar and then accused of murder. How he is won back to a better life with faith in his heart for mankind, makes a story that vies with the best of the season's offerings in the matter of sustained interest and suspense.

## NEW STOREY FILM IS "THE GOLDEN HOPE." SHERRY'S TODAY ONLY

Edith Storey, the popular emotional actress of the screen, returns to the silver sheet after an extended absence during which she was engaged in war work in "The Golden Hope," a superb drama.

The Haworth Company was extremely fortunate in being able to film a number of the scenes in the exact locations described in the book. In one little town, they obtained unexpected "atmosphere" when the entire town turned out to witness the "movies" being made. Director Joseph De Grasse, quick to recognize the unusual, skillfully and without the knowledge of the people themselves, photographed them as a background, and as they were entirely unaware of this, their actions were the most natural during the exciting scenes being taken at that time.

It is a story in which the human emotions are given full play with the splendor and solemnity of mountains and desert as a background. Also showing a comedy.

## Bird Film Artist.

New York has a bird which has started on a successful film screen career. He is a cockatoo called Cosmo. His beautiful white feathers attracted the attention of the director of a large film company, and now he has a job appearing in all scenery where birds are needed. He gets a good salary.

# IN FASHION'S MIRROR

The character of wrap most admired for spring is shown in the illustration above. It is a compromise between a cape and a coat with a strong flavor of the former. Fashion's mirror reflects many capes—pure and simple and many coats, embodying more or less the lines of capes.

# BECOMING TO MATRONS

The fine art of dressing up to one's age demands dignified, brilliant and beautiful hats for middle life. Matrons wear such lovely and flattering bits of millinery as the hat at the top of the group above with braided crown and malines trim in brown. A wreath of metallic silk roses interspersed with grasses livens it with rich color. The hat at the left is a favorite shape with up-rolling brim and a soft crown of silk blend.

# NEAT SLIP-ON SWEATER

Interest still centers on sweaters and sweater coats for everybody wears them. These garments of wool or silk are closely or loosely knitted according to the degree of warmth required of them. The on and slip-on models that set simply to the figure rival the smart loose-hanging sweater coats and everything appears to be provided with a knitted circle or sash. The pretty model pictured reveals the trend toward neat effects.

Word to Be Avoided.  
It is not a lucky word, this "impossible." No good comes of those that have it so often in their mouths—

# To the Workers of Oregon

By Otto R. Hartwig  
President, Oregon State Federation of Labor

DURING these days of reconstruction and uncertainties, it becomes more than ever necessary for the citizens of Oregon to patronize the industries of Oregon by buying such products as are made in this state.

Industries of Oregon cannot be expected to grow and furnish continuous satisfactory employment to the workers of Oregon if we spend our money for products manufactured elsewhere.

It is a well known fact that on the whole, Oregon workers are receiving better wages and working under more satisfactory conditions than is true of the workers in many of the eastern centers where a good deal of the products that the careless purchaser buys comes from. It is the height of stupidity and selfishness to demand decent working conditions from the Oregon employers and then turn around and use the money earned in Oregon to buy products made under sweat-shop conditions that exist in many of the eastern and middle states.

Let's buy Oregon Products!
