PERRY TO HAVE BASEBALL TEAM

PERRY, Apr. 14.—The boys have organized a baseball team with Floyd Waits as captain and are out practicing almost every day. If they can only get another man to brace up their pitching staff the Perry team will be in condition to take on any of the clubs in La Grande or the surrounding towns. A practice game was played Sunday afternoon on the local grounds, with the players divided and some old timers filling in on both teams. A second team is also planned with Lester Stoddard as captain.

Last Saturday night some of Miss Goldie Pehrman's friends invited her to a neighbor's for a short visit and when she got there she discovered that she had been agreeably surprised in honor of her birthday, sweet sixteen, so one of the boys says, but others heard that she was nineteen. After giving her time to recover from the surprise, the young folks repaired to Miss Pehrman's home and the evening was pleasantly spent in playing games and a good social time. The only deplorable incident of the evening occurred when Victor Holmes sat down in a chair where it wasn't and cracked his head against the wall. He was a little dizzy for a while but was all right in a few minutes. Light refreshments consisting of ice cream cake and sandwiches were served. At a late hour the self-invited guests took their departure, all declaring that they wished Goldie could have another birthday every month. Those present were: Mesdames Fred Pehrman, Walter Pehrman, George Andrews, T. H. Carr, Pearl O'Rourke, Mesdames Victor Robert, Frederick Holmes, Emmet Smith, Clifford Carr, F. COVE TEACHER IS MARRIED

Miss Ethel Hansen sang "O, Promise Me," and "By the Waters of Minnesota." After the ceremony, a wedding dinner was served to those present.

Mrs. Ekstrom is the daughter of Rev. and Mrs. W. S. Gordon, of Portland, and is a very popular teacher of the Cove High School. Mr. Ekstrom is the son of Mr. and Mrs. H. Ekstrom, of Astoria. The young couple will make their home in Seattle, Wash. Their many friends wish them much happiness.

PREVENTATIVE MEDICINE.

The tendency of medical science to toward preventative measures is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of cold appears as to get rid of it with the least possible delay. It is fully to risk an attack of pneumonia when this remedy may be obtained for a trifle—only.

SAYS SOUTH IS SUFFERING ALSO

Fred Kiddle, Sr., who has just returned from a trip through Alabama and Georgia, where he has been contracting Grande Ronde valley flour, says the south is suffering also from the present depression in business.

"It is the same all over the country that I visited," said Mr. Kiddle. "No one knows what to do and no one is doing much. In the cotton producing states everything is a little worse than elsewhere, but on every hand there is stagnation of business."

BASEBALL GUIDE IS NOW ON THE MARKET

Fast approaching the half-century mark, the Spalding Guide appears once more, chronicling the renewal of the national game for 1921. John B. Foster, who succeeded the late Henry Chadwick a dozen years ago upon the death of "the father of baseball," continues as the editor. Mr. Foster's years of experience bring to his task on the guide the knowledge that

only an intimate acquaintance with baseball can give, and this year's edition reflects the work that has been devoted to the book.

What congress ought to do now is to put a luxury tax on armaments.
