Union County's Road Problem For 1921

For some months past, Judge T. H. Crawford, local attorney, has been studying the road situation in Union county, and has worked out a very comprehensive study of this much discussed question. At the recent meeting of the Union County Ad Club, Judge Crawford gave a very interesting resume of the question now before the county, and this week, gave to the Observer the following communication:

The Constitution of the State was amended in 1919 to authorize counties upon a vote of the majority of those voting thereon to create debts for permanent roads up to six per cent of the taxable property of the county.

Chapter 103 of the Laws of 1913, which was a general law of the state at the time of this amendment, put this amendment into effect at the time of its adoption and promulgation.

Election Was Held.
 By authority of this amendment of the Constitution and in accordance with the said statute and election was held on the 11th day of October, 1919, whereby the County Court was authorized to issue bonds for permanent roads in the sum of \$1,489,000.00, apportioned to the following roads: The road from La Grande to Minam by way of Elgin, the sum of \$679,500; the road from Kamela to North Powder, by way of La Grande and Union, \$388,500; from Island City to Iowa school house, \$85,000; from La Grande to Cove, \$275,000; Imbler to Summerville, \$51,000. Under the law the money realized from this bond issue and apportioned to these roads must be spent by the county court upon these roads and not elsewhere.

Section 4 of this act authorizing the calling of such bond election specifies in detail what the order calling the election shall contain, and further provides that "said order may contain any other details which the county court may deem proper, not inconsistent with the provisions of this act." Under this provision, the county court inserted in this order calling this election in effect that not more than \$400,000 of said bonds should be issued in one year.

Bonds Advertised.
 This act further provides that when an election has been held authorizing the issuance of bonds for permanent roads, in accordance with this act, that the county court shall cause the bonds to be issued and shall advertise such amount of them for sale as in the judgment of the court may be necessary, and thereafter from time to time the court shall make such additional sale of bonds so issued as may be necessary."

Section 17 of this act provides, that after the issuance of bonds, have been

Brooklyn, Chicago, St. Louis, Cincinnati, Boston and Philadelphia. The American league, in order are Cleveland, New York, St. Louis, Washington, Philadelphia, Detroit, Chicago and Boston.

STUDENTS LAYING CLAIM FOR CONFERENCE CHAMPIONSHIP
O. A. C. Nine Is Also Expected To Be Strong This Year; U. of O. May Not Loom Up Strong.

SEATTLE, Wash., Apr. 16.—University of Washington students already are claiming the baseball championship of the Northwest Conference for their varsity nine this year.

The Washington nine of 1920 was not hit hard by graduation and it really gained more material from the freshman team of last year than it lost by the four-year route.

According to reports from other conference schools, the Oregon Agricultural College team will be strong this year, but the Washington State College and the University of Oregon nines may not loom up strong in the pennant race.

No Pacific Coast Conference baseball championship will be fought for this year as Stanford University and the University of California, the two southern members of the coast organization, have not scheduled games with the northern members.

Washington's nine, according to present plans, will leave in July to tour Japan, Stanford and California. It is said, are also planning to send their teams to the Far East this year.

Central and Greenwood Are Tied for Second Honor; Will Play Game in Near Future.

The boys' team of the Riviera school won the city championship of the city grade schools, in the recent series of games which have been played between the three schools. The games have been under the direction of Miss Fay Armstrong, who has acted as umpire in the games. The Riviera boys have won all the games they have played.

Under the series, each team must play two games with every other team. Central school and Greenwood are tied for the second place in the tournament, but until the weather man shines a little more favorably, the game will not be played. SPRING TRAINING WORK IS NOW ON

Officials of Tacoma Club are Hoping for Crowd of 15,000 When the Opening Game Is Played.

TACOMA, Wash., Apr. 16.—On four Washington diamonds, teams of the Pacific International Baseball League are doing their spring training work in preparation for the opening of the season, May 3.

Tacoma and Yakima are working out on their home diamonds while the Canadian members of the league, Vancouver and Victoria, are training near Bellingham, Wash.

Officials of the Tacoma club are hoping that a crowd of between 15,000 and 20,000 will turn out when Yakima opens here. The first game will be played in the big Tacoma stadium. Efforts are being made to have the mayor declare a half holiday here for the opening. Victoria opens at Vancouver.

The league schedule has been split and the team winning the first half which closes July 4 will meet the winner of the second half, closing September 5, in a post-season series to decide the championship. The post-season series will go for seven or nine games.

As Sunday baseball is barred in British Columbia, the Washington members of the league, Tacoma and Yakima, will have heavy schedules of Sunday contests on their home grounds. Sunday games also probably will be played in Washington towns near the international boundary.

BASEBALL GUIDE IS NOW ON THE MARKET
 Fast approaching the half-century mark, the Spalding Guide appears once more, chronicling the renewal of the national game for 1921. John B. Foster, who succeeded the late Henry Chadwick a dozen years ago upon the death of "the father of baseball," continues as the editor. Mr. Foster's years of experience bring to his labors on the guide the knowledge that only an intimate acquaintance with baseball can give, and this year's edition reflects the work that has been devoted to the book.

It pays to advertise.

Look up at your ceilings!

If the plaster cracked—dangerously sagging or likely to fall? Nearly every home has at least one room that needs attention.

Re-plastering is never satisfactory. Lath-stains invariably appear. There is an easy way to do 'over' broken, sagging plaster—Upsonite!

Your carpenter can nail the big sturdy panels of Upson Board over the old plaster any day of the year. The entire job is done in three or four days. An Upsonized ceiling can never crack, chip or fall.

Do not confuse blue center Upson Board with ordinary wallboard. It is different! It is harder, stiffer and by actual test nearly twice as strong!

The low cost of Upson Board
